KLUCK'S GOOSE ABOUT COOKED

FRENCH DRIVEN BACK BY VIOLENT ATTACKS

Official Paris Report Says Result of Fierce Battle Still Undecided but Allies Forced to Yield Certain Points—German Army Operating on East Prussian Front, After a Battle Lasting Ten Days are Beaten Back—Large Quantity of War Material Abandoned in Flight.

Paris, Oct. 5.—(3:02 p.m.)—The following official communication was given out in Paris this afternoon:

"On our left wing to the north of the Oise, the battle continues with great violence. The result remains indecisive. We have been obliged at certain points to yield ground.

"Along the remainder of the front there has ben no change.

"In Russia, after a battle which lasted ten days, the German army which was operating between the eastern Prussian front and the Niemen river, has been driven back along the entire line and made its retreat abandoning a considerable quantity of war material. This army has evacuated completely the territory of Russian provinces of Suwalki and Glonja."

"WAR WILL PROVE A WINNING CARD FOR CANADA"—McARTHUR

Big Railway Builder Says Country Has Already Passed Through Getting-Under-Way Stage—Main Thing Now is to Get People on Land—Two Lines From Edmonton North are Extending into Hinterland Fast Not a Man Has Been Taken Off—Statesmanship, not Soup Kitchens, Needed in West.

J. D. McArthur, who has since the war began, been called the Kitchener of railway construction in western Canada, passed through the city for a trip west over the G. T. P. Sunday, staying at the Selkirk hotel with C. A. Ashmore, manager of the Western Trust company, of Winnipeg, and some officials of the two new railways, the J. D. McArthur Construction company is building north from Edmonton. They expect to return in about a week.

Mr. McArthur, while looking at Canada's future in a most optimistic manner is characteristically frank in speaking of things in general. He says that something must be done to cope with the conditions which have been brought about, and, as Mr. McArthur is the one outstanding employer of a lot of labor who has not cut down his staffs or been compelled to stop work through financial depressions, his opinions and his advice should be worth something.

Progress in the North

"On October 10," says Mr. McArthur in an interview, "we will finish the grading of the Dunvegan and B.C. railway to the Smoky river, which is 200 miles northwest of Edmonton. Steel has been laid for 200 miles of this distance, and we will have steel laid to the Smoky river by December 1. We have had 2,500 men at work on this line, and they are at work yet. Not a man has been taken off on account of the war.

"We crossed the Athabasca river with a permanent steel bridge 900 feet long, that is to say, a steel superstructure on concrete piers. The grading has reached a point 40 miles south of Dunvegan. The line, as you know, passes that far to the south of this town. We are pushing on to the boundary line of British Columbia. We are operating a section of the line under construction, and several small towns have been started with the customary number of stores. As I have stated before, this is a mixed farming country, but farmers everywhere are beginning to see that this is the most approved method of farming, and we have had a great many settlers on in this summer. The Peace River country has a mighty future before it.

Graded Beyond Lac la Biche.

"Grading on the Great Waterways railway which runs northeast of Edmonton was started last spring and has already reached a point beyond Lac la Biche, a distance of 127 miles. We will have steel laid to that point in two months. We have 2,000 men at work on this line, and as in the case of the Dunvegan railway, none have been laid off on account of the war.

"What do I think will be the effect of the war on Canada? I think that the future was never brighter than it is today. We have successfully come through our difficult task of getting under way—of gaining momentum—and that was a greater task than anything that confronts us today. There is nothing now that can hold the west back. The main thing is to get people's attention focused on the land, and on mixed farming. This is an agricultural country and greater efforts must be made to develop it as such. As yet only ten per cent. of the arable land is under cultivation, we have just turned over a few spadefuls, as it were; there is a great work to be done in developing the balance.

"The war is going to prove our winning card. It is too bad that we are going to reap a profit from the sacrifices of blood and lives, but it is so. I expect a heavy immigration to western Canada as a result of this war.

Labor Problem to Face.

"There is a labor problem that must be faced at once. The governments should take a hand, and keep all possible work in operation during the winter; city corporations should continue to put down sewers and provide all possible employment on city work, and every concern employing men should strain a point to keep them working, even at reduced wages.

"I believe the lumber companies should use every possible means to keep their camps going this winter. From an economic standpoint it would be far better in the end to do this. The war is bound to result ultimately in a very heavy demand for lumber. They will need more lumber in the states and in South America, and under the present conditions they can secure cheap labor and cheaper transportation."

Wants No Soup Kitchen

"We must keep these men out of the soup kitchens. Better far for them to work for their board or for $10 a month than remain idle. The man who goes to the soup kitchen deteriorates, loses his self-respect, and comes out in the spring degraded, and a poorer man physically and morally. I am a great believer in work. Work is the great thing. It keeps men healthy and happy. It keeps their mind occupied. It means individual growth and development in every way. It means prosperity. We must keep these men out of the soup kitchens.

"A good suggestion has been made that idle men be placed on the farms for their board or a small wage during the winter. This would be far better for them than remaining in cities. There must, however, be some comprehensive plan laid out for dealing with this acute problem."

LETTER WHICH WENT DOWN WITH IRELAND REACHES CITY—DRY.

A letter hich went to the bottom of the sea in the Empress of Ireland is in the possession of Josephine Lafferty, stenographer at the city hall. he misaive is one she addressed to her father and mother in Bournemouth, England, about a week prior to that notable catastrophe. It was returned to her by the dead letter office in a large envelope while in Winnipeg last week. On the face of her own letter was stamped with an ordinary rubber stamp.

"Recovered by divers from the wreck of the S. S. Empress of Ireland."

The letter was not damaged by water. The extreme edges were soaked, and the gum had obliterated a portion of the address from the envelope, but the letter paper within or the writing were not marred by the water. It appeared that the letter had been in the middle of a bundle tightly tied together with a cord. The stamp had been soaked off, but the stamped corner was the wettest portion of the letter. The dampened edges had made it easy for the dead letter office to open the letter without cutting it and the sender's address was discovered within.

Evidently the letter had been returned to the sender rather than forwarded to the address called for, because the addres had become somewhat blurred and in places scarcely legible.

This year Hong Kong has exported over $200,000 worth of peanuts to the United States.

SITUATION AROUND FORTS OF ANTWERP HAS NOT CHANGED

Antwerp, Oct. 5.—According to official announcements made today the situation of the fortified positions around Antwerp remains today without change.

WESTLOCK, ON E. D. AND B. C. IS GROWING FAST; FIRST FAIR ON TUESDAY

(Special to the Capital)

Westlock, Oct. 5.—A shipment of three cars of cattle from this station to Edmonton last week marks a beginning in live stock shipments over the new E. D. and B. C. line. The country adjacent to this town is particularly adapted to the raising of cattle as the feed ggrows luxuriantly—vetch, pea vine and wild grasses.

Considerable business is being done at this point, meat produce, eggs and such products being shipped north, while cream is regularly shipped to Edmonton. Passenger traffic over the railway is increasing. The time of trains now running is reduced to 11 hurs from Edmonton to Sawridge.

A new methodist parsonage is in the course of building here and other buildings are contemplated.

The first Westlock annual fair is to be held on tuesday, at which time the ladies will collect for the patriotic fund.

One of the circulating libraries from the university of Alberta is in use here and is much appreciated.

FIGHTING JOE IS INTERESTED ANEW IN THE DOMINION

Picturesque Political Figure Drops in on Edmonton on Way to Vancouver

WANTS TARIFF WHICH WILL RECOGNIZE WEST

Characterstically States He Will be Satisfied "With Nothng Less."

Hon. Jos. Martin, member of the British parliament for the constituency of St. Pancras East, London, spent Sunday in Edmonton, on his way back to Vancouver from Ottawa. Mr. Martin has retired from British politics, although he will retain his seat until the dissolution of the present parliament, and will take up his residence again in Vancouver, where he has large interests. Mr. Martin also proposes to interest himself anew in Canadian politics.

"Fighting Joe" stated that in a recent interview with Sir Wilfrid Laurier with regard to the genral position of the liberty party, and after a thorough discussion of the conditions, he found that he was able to accept Sir Wilfrid's suggestion that he should take an active part in the next dominion elections.

"He invited me to assist the party in Manitoba, Saskatchewan, Alberta and British Columbia," said Mr. Martin. "This is not intended to affect anybody, or to interfere with local arrangements. My work will consist in endeavoring to convince the voters in the west that it will be to their interest—especially now that they have such a large addition to their representation—to support the liberal party.

"I am authorized by Sir Wilfrid to state that it will be the policy of the liberal party to take the tariff entirely off agricultural implements of every kind, and this will also apply to mining machinery and small machinery. The liberal party will also, if returned to power, increase the British preference. The exact increase has not been determined on, but if I have my way, it will be a very large increase indeed. Of course, athe high price of wheat will satisfy the American farmers.

"If I am elected a representative, I will be content with nothing less than a tariff which fully recognizes the interests of western farmers, and of all the people in the west who depend upon the farmers.

"Sir Wilfrid has stopped all campaign work during the war, and so far as I am concerned, this line of policy will continue."

Speaking of Winnipeg and the west, Mr. Martin said that while things were naturally dull in war times, the crop throughout the prairie provinces which he had seen on his way west, were most encouraging, and especially as he came farther north. "Of course," he said, "the inclement weather of the past fortnight has somewhat hampered the threshing of the harvest, but on the whole I found the farmers well satisfied."

Mr. Martin left for Calgary to be present today at the opening of the International Dry Farming congress, and stated that he may so arrange his plans to be present at the opening of the legislature here on Wednesday.

HERE'S THE MAN

F. E. SMITH, K.C., M.P.
Who has been acting as director of the official press bureau, but has now been ordered to the front. He will be succeeded as chief censor by Sir Stanley O. Buckmaster, solicitor-general.

TWO FEET OF SNOW IN MACLEOD; ROADS STATED IMPASSABLE

Macleod, Alta., Oct. 5.—The heaviest snow storm ever experienced in this district at this time of the year is in progress and over two feet of snow has already fallen. Many of the electric light and local phone wires are down and telephone communication with outside points is at a complete standstill. A high wind has drifted the snow to a depth of many feet and all roads outside of the town are impassable, completely isolating the ranches. In the Porcupine hills, the fall is even heavier and a rapid thaw will raise the Old Man river to an unusual height.

LITTLE DAMAGE TO FORTS AT ANTWERP

Germans Continue Their Desperate Attempts to Capture City.

KRUPP EMPLOYEES FIGHT

Teuton Shells Practically Destroy All Villages in Vicinity.

London, Oct. 5. (2:15 a.m.)—The Antwerp correspondent of the Telegraph, telegraphing regarding fighting around Antwerp, under date of Saturday says:

"The Germans continue their desperate efforts to capture Antwerp. They are in a desperate hurry to accomplish it, pounding away unceasingly with their artillery at Forts Waelhem and Wavre St. Catherine and flinging their artillery and infantry forward in frantic efforts to break through.

"Their losses have been enormous and the numbers killed are estimated as high as 8,000 during the present movement.

"Thus far the forts in the outer ring of the Antwerp defenses have suffered little harm from the German bombardment. The German big guns are not being worked by regular soldiers, but by men in citizens clothing who wear only an armlet to indicate their military occupation. Undoubtedly these men are employees of the Krupp factory, hastily summoned to replace the losses among the regular gunners. The heaviest German forces are located north of Vilvorde, where foundations of reinforced concrete have been prepared.

"The German shells have practically wiped out most of the little villages and hamlets in the outer circles of the Antwerp defences.

"The Germans still hold Malines, although at a heavy cost."

Patrick J. Rafts was found dead in room 17 in the northern hotel on Sunday. Coroner Forin, who was called, gave as his opinion that the man had died from excessive drinking and decided that an inquest was unnecessary. Rafts had been engaged on railway construction work west of the city during the summer.

ENVELOPING MOVEMENT BEING PUSHED FORWARD

CLAIMS HAVE TAKEN 240,000 PRISONERS SINCE WAR STARTED

Berlin, Sept. 24—The Germans now claim to have 240,000 prisoners of war, about 7,000 British, 40,000 Belgians, 100,000 Russians and the rest French. So far the prisoners have to do little manual labor but it is contemplated to put them to work draining swamps and repairing roads.

ADDITIONAL CRUISER SQUADRON WILL MEET CANADIAN CONTINGENT

London, Oct. 5.—An additional cruiser squadron will, it is learned, meet the Canadian army division which is now on its way across the Atlantic, when it nears these shores. The contingent is now being escorted by a convoy of cruisers and battleships, but will be met by the second convoy and taken to a point of debarkation which will be decided upon later.

TOUCHES BUTTON AT OTTAWA, OPENS CALGARY CONGRESS

Irrigation Gets Away to Excellent Start Despite Inclement Weather.

BULYEA READS MESSAGE FROM GOVERNOR GENERAL

Thinks by Intensified Farmng Many More People Will Settle in West.

Calgary, Oct. 5.—Despite the bad weather, the twenty-first international irrigation congress, the first to be held in Canada, opened its proceedings with every mark of enthusiasm at the horse show building, Victoria park, this morning. Although H.R.H. the Duke of Connaught, governor-general of Canada, was unable to be present in person he formally opened the congress by pressing an electric button at Government House, Ottawa, which, by an ingenuous device, unveiled a portrait of his royal highness hung above the platform in the horse show building. Almost exactly at 10 o'clock as the crowd of delegates and visitors waited in silence, a click was heard, and the two flags, which hung side by side over the portrait began to lift, and while the audience stood and the band of the 103rd played "God Save the King," the portrait was gradually revealed, and the congress was formally opened.

The official party arrived shortly before 10 o'clock and his honor Lieutenant Governor Bulyea took up his position on the platform, together with Premier Sifton, Hon. Duncan Marshall, Major Young, president of the congress; J. B. Case, first vice-president; George Snow chairman of the board of governors; J. S. Dennis, chairman of the local board of control; Mayor Sinnott, Dean Paget, Major Worseley of the R.N.W.M.P.; C. G. K. Nourses, member of the late board of control, and Secretary Arthur Hooker.

Lieutenant Governor Bulyea read the message of H.R.H. the Duke of Connaught to the congress as follows:

"I am commanded by his royal highness," said Lieutenant Governor Bulyea, "to convey to you his appreciation of the fact that you have enabled him to be officially connected with the opening of this congress. He would have been pleased to be here in person, and to have the opportunity of showing more actively the interest he takes in the development of this western country and in irrigation as a means to such development. But the European disturbance has unfortunately made it impossible for him to leave the seat of government. He thinks that by irrigation and intensified forms of farming many people can be settled where ordinary agricultural methods would not be possible."

Dr. Snow stated that he was authorized to extend the appreciation of the administration at Washington of the invitation to be represented at the congress. Like Canada, the United States was interested in the peaceful development of all its natural resources and took great interest in this convention. They expected to learn many things to take back to help them in solving problem which were very similar on both sides of the line. President read his address.

Fact that Fighting is in Progress in and Around Town of Douai, Midway Between Arras and Valenciennes, Shows How Raoidly Work is Progressing—At Soissons German Trenches Have Been Captured but Germans Continue to Fight Fiercely.

London, Oct. 5.—The fact that fighting is in progress in and around the town of Douai, midway between Arras and Valenciennes, on the railroad to Mons, is taken in London to show how surely the allies in northern France have pushed forward a movement they hope will envelops General Von Kluck, the German commander of the right wing.

For the last week the Germans, so far as can be ascertained from the few facts known in London, have been vainly hurling their armies against different points of the allied line in an effort to discover a weak mesh in the net. At present, in the view of General Joffre, the process of attrition has gone far enough to justify the resumption of offensive movements on the part of the allies as announced in the latest communication from French headquarters.

Apparently the intent now is to attempt something decisive against the German right wing and if possible bring to an end this contest which for magnitude and stubborness is without precedent in history.

REINFORCEMENTS PUSH FORWARD.

The series of highland stretching north and south along the allied left are the master keys of the battle and a considerable force from overseas and elsewhere has been pushed up to secure control of them.

At Soissons, the German trenches already have been captured, but the Germans continue to fight fiercely an dare still attacking at this point as elsewhere along the entire line of battle. German official reports claim successes just as confidently as General Joffre maintains the contrary.

In the eastern theater of the war the Germans would appear, according to English observers, to be contemplating a period of defense before undertaking th offensive. They are busily engaged between Thorn, in eat Prussia, and Galicia in ntrenching themselves against the Russian hosts gathering on the other side of the frontier. It is calculated that there are no fewer than 4,000,000 fighting men in this eastern arena and a repetition of long and arduous siege battles which has been such a feature of the struggle in France seems a certainty.

PUSHING TO CRACOW.

The Russians continue to push westward on Cracow evidently with the hope of getting thence to Breslau, and they go on stretching their tentacles out southward toward Budapesth. Coassacks are well on the plains of Hungary. Even Budapesth admits that they have crossed the river Theiss, which was regarded as one of the main obstacles to their progress. By getting across the railroad at Szigeth, they secured the second line leading to the Hungarian capital. They had already seized the Lemberg-Budapesth line at Unghvar.

The Austrians on the other hand claim further victories against their smaller enemy invading Bosnia, but they are silent on the subject of Sarejevo which according to Servian and Montenegrin statemnets is surrounded by their allied armies.

MONTGOMERY'S SON IN LAW EXECUTED BY GEN. CARRANZA

Wealthy Oil Man Charged With Being Traitor is Put to Death.

Los Angeles, Calif., Oct. 5.—Javier Espionaso Cuevas, son in law of John Montgomery, a wealthy oil producer of Los Angeles, and brother of Don Jose Espionase Cuevas former governor of San Luis Potosi was put to death today at Mexico City by order of General Carranza's representative here.

Don Jose Cuevas was shot a month ago.

Both men were charged with being traitors and were executed under the law of 1862.

Montgomery upon being notified of the execution of Cuevas, sent an appeal to the department of state at Washington to protect Mrs. Cuevas, his daughter and her children.

The Cuevas brothers were adherents of Huerta, said Carrillo. "Many other former Huertaists will share the same fate."

As the result of a raid on the Commercial club on Sunday morning, H. Cox, the keeper of the house, and six men are charged with gambling. It is claimed that at the time of the raid a game of draw poker was in progress. Formerly the club had a license to sell liquor but it was taken away some time ago. The cases were remanded till October 8, in police court Monday.

For keeping a vicious dog, M. Crohn was fined $5 and costs in police court Monday and the dog is to be destroyed. The canine in question, a bull terrier, during August bit Mrs. R. Thompson severely, necessitating several visits from a doctor. Crohn attempted to disclaim ownership of the dog but he was unable to do it and he will have to pay doctor's bills as well.

ANTWERP FORTS ARE TAKEN SAYS BERLIN REPORT

Breach Renders Attack on Inner Circle and Town Itself Possible.

CLAIM VICTORY IN EAST MANY MEN ARE CAPTURED

Admits Portugal's Partcipation in War on Allies' Side is Imminent.

Berlin, Oct. 5 (by wireless to Sayville).—An official report from the German headquarters says that in the siege of Antwerp the forts of Lierre, Waelhem and Koning Shoyckt, and the intermediate redoubts with thirty guns, have been taken.

"Thus a breach has been made in the outer circle of forts," the report adds," rendering an attack on the inner circle of forts and town itself possible.

"Near Augustowo the third Siberian and parts of the 22nd Russian army corps, compoeing the left wing of the Russian army, on crossing the Niemen river, were attacked after a fierce battle lasting two days. More than 2,000 unwounded Russians were made prisoners and a large quantity of guns and machine guns were captured."

Other press matter given out in official quarter says:

"The force of native troops from British India, which recently landed at Marseilles, has left that part for the northward.

"British ships have arrived at Lisbon and are probably destined to transport Portuguese troops. Portugal's co-operation in the war is imminent, the mobilization of the Portuguese forces, it is believed, having been ordered on the demand of the British government.

"England is sowing mines in parts of the North sea and a warning to this effect has been given to neutral shipping.

"The Roumanian crown prince has been strongly rebuked for his Russophile agitations. The leaders of the Roumanian parties have declared themselves in favor of continuing the neutral policy of the Roumanian government.

"A manifesto issued by the Roumanian socialist party assumes that the neutrality of the country will be preserved."

An overheated stove was responsible for the destruction of the Alberta Cash store at the corner of 124th street and Alberta avenue on Sunday morning. The loss on the building and stock is placed at $3,500 with insurance amounting to $2,400.

STOMACH RELIEF! NO INDIGESTION, GAS, SOURNESS—PAPE'S DIAPEPSIN

Time it! In five minutes your upset stomach will feel fine.

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you must not injure it with drastic drugs.

Pape's Diapepsin is noted for its speed in giving relief; its harmlessness; its certain unfailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store, and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach, all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.

IMPREGNABLE POSITION AT SOISSONS HINGE OF DOOR CLOSING IN ENEMY

Attacks of Prussians at Craonne But a Mask to a Rapid Movement Primarily to Outflank Allies and Secure a Broad Road Home.

(By H. M. Tomlinson)

A town in France, Oct. 5.—The violent and repeated attacks of the Prussians against the French lines between Craonne and Argonne were but the mask to a great and rapid German movement which, aided by reinforcements from the east through Belgium, was to outflank the allies primarily and in any case to secure their main lines of communication, and a broad road home. But the French were quicker—their wonderful railways prepared a shocking surprise for General Von Kluck. The impregnable positions near Soissons was the hinge of the huge door which was being shut against the exit of the German army.

Vainly at Noyon the Germans have thrown their strength against this closing of the barrier. As at Roye, they have been thrown back. They discovered this barrier still moving against them.

The end of that barrier moving against the Germans, its hinge at Soissons, is now close to the frontier. I cannot say that the German line Through Vanecienenes - Cambrai - St. Quentin has been yet cut, but if the official communication now announced it, it would not surprise me. They are entrenched there, no doubt and will be difficult to move. In any event the way home, the way the Germans came, is certainly so narrowed by this time it would allow, so to speak, an exit only in single file.

There is left for the Prussians the line of the Meuse through Dinant and Namur and in the direction through Luxemburg.

LARGE NUMBER OF ENEMY SURROUNED ON GERMAN RIGHT

Line is Shattered and Feeling is that Center Position Soon Untenable.

KLUCK'S WIRELESS FOR ASSISTANCE INTERCEPTED

Bavarian Regiments Demoralized by Sudden Onslaught of Joffre's Men.

A town in France, Oct. 5.—France knows that good news lurks behind the veiled hints of the official bulletins. It is better news even than that of the fighting at Roye where Mavarians regiments have been cut up and routed by a surprise attack in which the French infantry, after advancing in a mass rapidly has hurled on the German lined under cover of the darkness.

The Bavarians were demoralized by that sudden onslaught and their attempt to retreat developed into a disorderly panic. Hundreds were killed and large numbers captured.

Afterwards General Von Kluck and his staff officers sent up reinforcements and the German divisional officers succeeded in rallying their men and sending them to a counter attack. But the French infantry gained ground as far as La Chavette and General Joffre has himself announced that the Germans violent efforts to regain their position have been repulsed and shattered.

The net has closed in upon them and all their struggling has only made it bulge out into a preposterous shape which cannot be called line. The German front on the right wing is a series of erratic curves and sharp angles into which the French have driven wedges. To the extreme north the flank attack of the allies is threatening their main positions in the center which will soon become untenable. Lower down on the west their army corps are practically divided by French columns. At Lassigny according to the news already published, a large force of Germans is entirely surrounded.

The Germans only hope now lies in the trenches which they have been digging for the last fortnight, and the heavy masses of men they are withdrawing from the center to strengthen their right wing and their long line of communication. It was for this purpose they made such violent attacks on the British lines as those described in the official report of a staff officer under Sir John French. That tremendous cannonade was to mask the westerly movements of their reserves behind the lines. It was meant to conceal the withdrawal of their main forces from Alsace and Lorraine in answer to appeals for help sent by wireless messages from General Von Kluck and other commanders. These messages were intercepted at a French wireless station.

GERMAN ARTILLERY STUCK IN THE MUD RUSSIANS GRAB IT

Enemy Inveigled into Marshy Ground Pays Awful Price For Advance.

MUSCOVITES PLAY AT WARFARE THEY LIKE

Teutons are Routed, Losing Many Men in Encounter With Odds Against Them.

Paris, Oct. 5.—In a despatch to the Havas agency from Petrograd the following details of the combat between the Germans and the Russians at Osowetz fortress in Russian Poland are given:

"The Germans approached the forts by the Grajewo (southeast of Augustowo) route, the only one open to them. Nine miles from the forts the artillery was stopped by the marshy ground and from there began a heavy artillery fire. Infantry with machine guns was sent on and approached to within four miles of the forts.

"The Russians then made a sortie, profiting by routes unknown to the Germans, and enveloped the two wings which, it was supposed, had occupied all the routes. When this movement was disclosed a furious engagement ensued under conditions unfavorable to the enemy.

"The artillery of the forts caused large casualties among the Germans on the roads, while the infantry badly battered their flanks.

"The fight lasted 36 hours and ended in the rout of the Germans. The Russians captured all their artillery, which got stuck in the mud."

CHAS. H. OLIN, M.P.P.

Member of the Alberta legislature for Wetaskiwin, who died Saturday night, after an illness of three weeks.

MEMBER ALBERTA LEGISLATURE DIES

Chas. H. Olin, Representative in House for Wetaskiwin Succumbs to Illness.

WAS POPULAR IN RIDING

One of First Homesteaders in District, Settling There 25 Years Ago.

Wetaskiwin, Oct. 5.—Charles H. Olin, M.P.P., for Wetaskiwin constituency, passed away at his residence here Saturday evening after an illness of three weeks. He was in his forty-eighth year. He expected to be able to attend the sitting of the legislature this week but death came suddenly.

With the exception of the inaugural member for this constitu legislature, Mr. Orin has been the member for this constituency since the formation of the province and that he was held in the highest esteem throughout the constituency is evidenced by the magnificent majorities by which he has defeated his opponents at the two general elections.

He was also a member of the city council for several years. Deceased was a native of Sweden, but he has been a resident of this district nearly 25 years, being one of the first homesteaders.

He leaves a widow and three children. The funeral takes place Tuesday afternoon at 2 o'clock, interment being in Wetaskiwin cemetery.

BATTLE CANNOT BE LOST BY ALLIES IS FEELING PREVALENT

Sacrifices on Both Sides Great and Winning Side Must Pay Dear.

Paris, Oct. 5.—(7.20 a.m.)—When the long drawn out battle in the north was resumed today there was a feeling in many quarters that decisive developments were imminent. Consequently this afternoon's statement of the war office on the battle of the Aisne, unique in the history of battles, was awaited with the greatest interest.

While the French realize that the battle has not yet been won, it does not seem to many of them that it can now be lost. If the allies win no doubt is felt that they will pay for it, the sacrifice on both sides already being great. The tone of the official communications has furnished the best reasons for the hope on the part of the French, although the announcement of the visit of President Poincare to the front was an additional factor in the confidence and optimism in regard to the intense struggle. His action is generally commented on as indicating that success is at hand.

GERMANS WILL REGRET SUCCESS OF MOVEMENT WHICH TOOK ST. MIHIEL

London, Oct. 5.—A Bordeaux despatch to the Times says:

"The Germans may soon have cause to regret the success of the movement which carried them to St. Mihiel and the banks of the Meuse. While their engineers made unavailing efforts to bridge, again the French are working step by step towards the rear.

"The balance of days and nights and of exhaustion in dripping trenches, of dashing bayonet charges, gallant cavalry actions and obstinate bombardments is about to be struck. France awaits the end of three weeks' struggle with confidence, while casting an eye upon Antwerp.

Raymond Morgan tried to kill himself in Belleville, Ill., the other day, because of a protracted visit of his wife to her mother.

WHY should I "be sure" to get WRIGLEY'S SPEARMINT ?

BECAUSE it is beneficial, preserves the teeth, purifies and sweetens mouth and breath, soothes the throat, quickens appetite, aids digestion.

—every particle that goes into it is clean and wholesome—subjected to rigid examination to insure quality.

—it is the **BEST** that men, machines and money can produce in the most up-to-date, sanitary chewing gum factories in the world.

BERLIN OFFICIAL REPORT CHEERFUL

Says Battle on the Right Wing and In Argonne District Successful.

London, Oct. 5.—A despatch to Reuters from Berlin, via Amsterdam, gives an official statement issued at the German headquarters on the evening of October 4, saying:

"In the western theater, the battle on the right wing and in the Argonne district is proceeding successfully. The operations of Antwerp and in the eastern theater have been carried out according to a plan and without fighting."

ITALIAN ARMY SAID TO BE QUITE READY FOR ANY EMERGENCY

London, Oct. 5.—A Chiassa despatch to the Mail, says: "The Italian government is spending ten million dollars on winter outfits for troops, including wooden vests and fur coats suitable for a campaign in the mountains.

"The Italian army is now quite ready."

GERMANS ARRESTING ALL MEN BETWEEN 15 AND 35 IN CAPITAL OF BELGIUM

Ghent, Oct. 5.—The Germans are arresting all men between the ages of 16 and 35 in Brussels. They are induced to present themselves at German military posts under various pretexts and are promptly placed under restraint there.

Altogether there is a happier and more hopeful atmosphere in Ghent and throughout this district. More shops are open and busy today in Ghent than at any other time since the war began. "The Germans are lost" is the cry on every lip, but there is grave anxiety for Brussels. Antwerp is fully expected to hold its own, and the Belgian view is that the more men the Germans lose trying to get into it, the better. The whole situation here is extremely hopeful except for the safety of Brussels.

Cancelled on Conditions

London, Oct. 5.—The Copenhagen correspondent of the Central News says that German despatches report that the suspension of certain socialist newspapers has been cancelled on the pledge of socialist leaders that these papers in the future will publish nothing calculated to create an opinion unfavorable to the prolongation of the war.

NUMBER 23 THE PROPRIETORS

RUSSIANS CLAIM GERMANS ARE ROUTED WHEN TRYING CROSS THE RIVER NIEMAN

Report that Muscovites Were Investing Cracow Stated to Have Been Inspired—French Situation at St. Mihiel is Relieved by Movement Threatening Rear of Crown Prince's Army—Fear of Neighbors Keeps Balkan States in Order.

London, Oct. 5.—(10.10 a.m.)—Russian reports indicate that the German offensive towards the Niemen river from the east Prussian frontier has ended in a German rout after the battle of Augustowo, which has been under way since September 25. If these reports are true, it means that not only has General Rennenkempf been given an opportunity to resume the offensive, but the important fortress of Osowetz has been relieved from investment.

An official message from the commandant of the German fortress at Konigsberg, however, has a decided contrast to the Russian report, although it does not localize it particularly. The Russians maintain that along the Prussian frontier they have generally been victorious.

As was expected, subsequent reports have discredited the rumor that the Russians were investing Cracow. It was hardly possible for the Muscovite forces to have reached there in such a short time, but a report that the Cossacks have reached the neighborhood of Cracow is distinctly creditable as the famous Russian cavalry is showing ability to cover the same wide field of operations as are the Uhlans in the western war.

While the allies in the west are congratulating themselves on the excellence of the railway service which enabled them to bring up all the necessary transports and reinforcements, the Russians in east Prussia are suffering from a lack of such facilities. No matter how great the Russian invading host proves to be, physical conditions alone would prevent any duplication of the wonderful march of the German forces through Belgium and northern France.

Fighting is reported around Douai, 15 miles east and north of Arras, and if this is true General Von Kluck is in as dangerous a predicament as he has been since the allies began their determined movement to turn the German right in France.

A lull, befitting the day apparently, prevailed Sunday along most of the battle front. The French situation at St. Mihiel has been greatly relieved, probably by the movement which threatens the rear of the crown prince's army.

It now seems certain that the forts in the outer rim of the Antwerp defences are still occupied by the defenders, but these must have suffered greatly. The desperate efforts on the part of the Germans to cross the river Neth, where their advance liens rest, have been repulsed. Along this line one of the great German siege guns is said to have been lost in a swamp, if this is true it is a serious loss for the Germans, for the huge weapons are not easy to replace. The latest reports from the besieged city that two attempts of the Germans to cross the river Neth have been smothered by the defenders' artillery.

In the Balkans the mutual jealousies of the small states which used to threaten the peace of Europe are now conspiring to preserve what is left of it, for each is afraid to cast its lot with either side for fear of an attack from its neighbor.

VIENNA HOSPITALS STATED INADEQUATE

City Council Erected Temporary Wooden One to Hold 10,000

UNEMPLOYED DESTITUTE

Government to Permit Importation of Argentine Beef For Time.

Venice, Oct. 5.—The Vienna hospitals and all temporary asylums for sick and wounded soldiers are fearfully crowded. The city council has decided to build additional wooden barrack hospitals, which will be furnished with 10,000 beds.

The great block of buildings comprising the university of Vienna has been given over entirely to wounded soldiers. The students are now forced to meet in improvised lecture rooms in various public buildings.

The army of destitute and unemployed people in the Austrain capital is increasing daily. The authorities estimate that it will be necessary to provide free meals for 100,000 persons daily and measures are being taken to carry this into effect.

Owing to the rapid advance in the price of meat and the shortage in the supply of livestock, the city council has asked the government to permit the importation of 1,000 tons of Argentine beef.

HUNGARIAN PORTS ARE CLOSED; FEAR OF NAVAL ATTACK STATED CAUSE

Venice, Oct. 5.—Fearing an attack by the English and French fleets in the Adriatic, the naval authorities at Fiume have ordered all Hungarian ports closed from an hour before sunset until an hour after sunrise. The Austrian board of commerce reports that the production of coal during the month of August dropped 30 per cent. In Germany it is said, the coal production decreased by half.

MINISTER GREY SEES DIFFERENT ERA WHEN EUROPEAN WAR ENDED

Washington, Oct. 5.—Upholding the integrity of treaties, a cablegram was made public by Sir Cecil Spring-Rice, the British ambassador today, from Sir Edward Grey, the British minister of foreign affairs, which said:

"We still believe in treaties, in the rights of the weak and the duties of the strong. We look forward, at the end of the war, to a Europe in which these great and simple truths will be safeguarded against a recrudescence of the era of blood and iron."

Evelyn Rich, born in Boston the other day, is already a great-aunt, her father having two great-grandchildren. He is 74.

DEPARTURE OF "NICK" FOR THE FRONT CAUSE OF GREAT ENTHUSIASM

Rome, Oct. 5.—According to a despatch received here from Petrograd, the departure of Emperor Nicholas for the front has caused great enthusiasm. Patroitic meetings have been held in various towns and villages throughout the empire at which the emperor was cheered. InPetrograd, General Baron Meyendorff, aide d'camp of the emperor, answering the cry of the people for the army to go to Vienna and Berlin, is reported to have said: "No human force can withstand us."

R. C. Won.

Toronto, Oct. 5.—Hamilton R. C. defeated Toronto Argonauts 22 to 17, in an exhibition rugby game here Saturday. Hamilton outclassed the local players practically throughout the game.

New Record.

Winnipeg, Oct. 5.—W. Barry's Dan D. created a new half mile record for Western Canada for three straight heats when he covered the first and third in 1:03¼ and the second in 1:03⅘. Dan D. is a pacer and made the record in the free-for-all at the amateur maltese races here Saturday afternoon.

Over 20,000 persons are employed on Peruvian sugar estates.

Buffalo, N.Y., has a new library building.

What the Theater Press Agents Say

THIRTY-TWO SOLID YEARS ON THE ROAD.

A reporter of the Capital met "Jack" Holland, for many years business manager of Richards and Pringle's famous Georgia minstrels, in the Selkirk hotel yesterday, and naturally the talk turned to "shop."

"Mr. Holland, how long has your company been on the road?" asked the reporter.

"Thirty-two merry winters and the same number of warm summers," smiled the genial Jack.

"Am I to understand you have traveled continuously summer and winter for that length of time?" asked the astonished scribe.

"Yes, indeed; life is one long endless chain of cities with us."

"But how in the world do you do it? Writers of the stage would lead us to believe that minstrelsy belongs to the past generation that the theater-goer of today seeks farce and musical comedy, and has no interest in that kind of entertainment, which afforded such pleasure to our forefathers."

"And in a measure he is right," replied Holland, "but only in a measure. Minstrelsy is as old as the world itself. David was the first minstrel. 'And now bring me a minstrel, and it came to pass.' A generation ago there was a score of minstrel companies on tour but today the successful ones can be counted on the fingers of one hand, and why? Because the taste of theatergoing else. Only a very few companies goers moves in cycles, as does everykept pace with the changing tastes of their patrons, and these alone survive. That is the reason it is so hard for a new name in the minstrel field to succeed. Minstrelsy decidedly does belong to a past generation, and the public will patronize only those companies whose names have been handed down like a trade mark through the years. Stand on the door of any theater where our company is appearing and you will be surprised at the large number of old people who enter. Men and women bent with age, often supported with canes or crutches, and even in invalid chairs. Oh, don't tell me the world no longer loves a minstrel show; our business proves to the contrary."

The date of this company's appearance at the Empire is for three days, starting Monday, October 12 with a matinee daily.

MUSIC AND FUN THIS WEEK AT PANTAGES

Music and real honest-to-goodness fun start at Pantages theater Monday for a week. The headliner is a musical transformation novelty, entitled "The Musical Blacksmith." It is presented by Staley, Berbeck and Staley and derives its interest from two factors, first, the genuine musical capabilities of the performers playing on various and uncouth instruments, and, second, the lighting like transformation from one scene to another. The curtain rises on a country blacksmith shop with the blacksmiths playing on various impediments of the same. Then all of a sudden the scene changes to a handsomely furnished drawing room with the erstwhile blacksmiths in conventional evening dress and playing on the piano and cello.

The fun starts when Edgar Atchinson Ely makes his appearance in the comedy farce, "Billy's Tombstones." This as a condensed version of the three-act play, entitled "Billy" in which the Shuberts first starred Ely. His rare humor-like work on the stage, with his present vehicle, brings round after round of applause.

The rest of the fun will be supplied by Quinn and Mitchell in the comedy skit called, "The Lemon City Land Agent."

The "Three Kratons" will supply the acrobatics with a hoop rolling turn and as this is their return engagement it is "enough said."

Joe Lanigan will deliver "Prescriptions in Contentment," by right he should be putting them up in a drug store but he thinks he can help humanity more this way.

The war pictures will conclude the performance.

Atlantic City had a building boom this year.

EVEN CROSS, SICK CHILDREN LOVE SYRUP OF FIGS

If feverish, bilious, constipated, give fruit laxative at once.

Don't scold your fretful, peevish child. See if tongue is coated; this is a sure sign its little stomach, liver and bowels are clogged with sour waste.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomachache, indigestion, diarrhoea, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul waste, the sour bile and fermenting food passes out of the bowels and you have a well and playful child again. Children love this harmless "fruit laxative," and mothers can rest easy after giving it, because it never fails to make their little "insides" clean and sweet.

Keep it handy, Mother! A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Remember there are counterfeits sold here, so surely look and see that yours is made by the "California Fig Syrup Company." Hand back with contempt any other fig syrup.

SCENES OF WESTERN CANADA AT EMPRESS

A story of the Canadian northwest is the basis of the star feature film attraction that heads the program at the Empress theater Monday and Tuesday. "Twilight" is the title of the production, it having been secured through the Warner Feature Film company as an added number to this bill.

Doubtless it has often occurred to the people of this country that the Canadian northwest offers excellent field for setting or inspiration of a motion picture story but this is the first time a feature film offering using this country as the subject of its development.

The film is in three reels and is replete with many stirring episodes and strong scenes. No expense was spared to make it a most realistic production of highest type.

"The Soul of Lukxi," is another of the pictures that will be shown with "Twilight." It is announced as a photo drama of much artistic merit.

The Empress theater management ha sdone well to get together a program of movies of this quality.

There will be no advance of prices for this bill.

Ten-cent I. O. D. E. Tea

The 101st Edmonton Fusiliers chapter of the Daughters of the Empire will hold a ten-cent tea at the residence of the honorary vice-regent, Miss Clara May Bell, 1772 Seventh avenue north, on Wednesday from 4 till 7. The funds will be used for the purpose of purchasing material which will be used to make materials necessary for the comfort of the regiment from which this chapter got its name.

PLATE FOR KING AT LYCEUM FOR WEEK.

It is a dish for the royal palate that the chef of the Lyceum theater offers as the current fare at the popular Jasper avenue stock playhouse.

"The Arabian Knights" has stood the test of time as few other farce comedies that have been presented on the American stage. None has a more honorable record of success, and few provide the players with better opportunities for fun-making.

William Yule will be the chief laugh-provoker while he will be aided by the augmented Lyceum company of accomplished players.

The regular Monday night bargain performance and the Wednesday and Saturday matinees will be in order this week.

ORCHESTRAL CONCERT ON SUNDAY A SUCCESS

The fourth concert of the series given by the Edmonton Professional orchestra at the Monarch theater was a great success from every viewpoint, a large and appreciative audience being in attendance notwithstanding the wretched weather.

The program was happily chosen and Rossini's Overture to "William Tell" was repeated in response to a hearty encore. Bizet's "Carmen was splendidly rendered as were all the other numbers, which were greeted with prolonged applause.

Mrs. A. McLean was the vocalist, and sang in her usual inimitable manner; being also obliged to respond the hearty encores.

GREAT LAUGHING HIT IS "STOP THIEF"

Laughs, laughs, and more laughs are guaranteed to any one witnessing a performance of "Stop Thief," the laugh cyclone which opens at the Empire Thursday night for three nights with a popular matinee on Saturday. No farce in recent years made a bigger hit in New York than "Stop Thief," on its initial presentation at the Gaiety theater last year and the New York success was repeated on the road. Picture a household on the morning of the wedding of one of the daughters, two kleptomaniacs, one of them the head of the house and the other his prospective son-in-law, a new maid with a clever crook accomplice, and you can begin to understand some of the complications which arise when valuable articles begin to disappear. The biggest laughs occur when the suspicion is directed against the wrong parties and when even the best detective in the state of Rhode Island has his watch stolen. To say that the story is probable and imposible, plausible and ridiculous, is only to say half of it, but it accomplishes the purpose for which it was written and will provide rattling good entertainment for all those who are looking for light entertainment.

STRONG PICTURES AT BIJOU TWO DAYS

The Bijou theater presents Monday and Tuesday a very entertaining bill of photo-plays. The special feature on this program is a two-part film, entitled "Mean Bill." It is a beautiful story of sentiment and war that doubtless at this time will be more appreciated than ordinarily. Any moving picture touching upon a war subject naturally now has an interest that makes it reach everyone differently than before, and the war and vivid battle scenes that are profuse in this film and the war atmosphere that is felt throughout the two reels, intermixed with the wholesome, fraternal sentiment, will make the picture all the more likable. It is said that there have been few pictures produced that so beautifully develop the spirit of loving comradeship as "Me an' Bill."

"The Ethics of the Profession," another of the pictures that will be shown Monday and Tuesday, is a story that will make an impression. A young physician is forced into the dilemma to choose between professional honor and personal revenge.

Pictures of this character should be seen. They emphasize strongly and in the most effective manner possible, the finest qualities of mankind.

FIRST SEASON'S MEETING WOMEN'S MUSICAL CLUB.

The Women's Musical club of Edmonton met for the first time this season in the lecture room of the First Presbyterian church on Saturday afternoon. Business occupied the first part of the meeting, and it was decided to hold only six instead of twelve meetings this wigter, owing to the unusual conditions prevailing at the present time. The fee for associate members has also been reduced from $2 to $1 so that both active and associate members' fees will remain at the same figure for this season.

Following the business discussions, Miss C. May Bell gave two well-rendered piano items, and Mrs. Freese two very finished dvocal numbers, Miss Corbitt accompanying her.

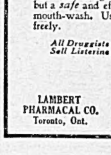

Saturday, November 7, is the date of the next meeting of the club, to be held in the usual place at 3:30 p.m.

To Purchase Horses

New York, Oct. 5.—L. Schecker and Alfred Bourget, agents for the Russian government, arrived here yesterday on the Campania of the Cunard line. They were on their way to Washington, they said. They believed to have come over in connection with the purchase of horses and mules for artillery and other heavy work in the war.

Siege Battery Engulfed

London, Oct. 5.—As a result of the flooding of the country in the neighborhood of Waelhem, a heavy German siege battery was engulfed, according to an Ostend despatch to the Exchange Telegraph, and a big gun was lost.

Y.W.C.A. Notes

The committee of the Fairfalrn branch of the Y. W. C. A. writes to thank all the members and friends of the association who contributed to the rummage sale or assisted in any way in making it a success. The proceeds will be of great assistance at the east end branch.

The first of the classes in physical training and expression in connection with the Y. W. C. A. will open at the McCauley school at 7:30 Monday night. These classes are expected to have a large enrollment. Mrs. M. Pimloit, the director, is splendidly qualified and Miss brownridge an excellent accompanist.

PRIEST INVENTOR SAYS HE CAN TAKE WIRELESS IN CLOSED ROOM EASILY

London, Oct. 5.—A despatch to the London Times from Rome says that it is reported from Aquila that a priest named Argentieri has invented a system for receiving wireless messages whereby communications may be received even in closed rooms. No poles or batteries are needed. The apparatus is of the simplest description and can be carried in one's coat pocket. It also is cheap.

The inventor says that he has been able to take messages from the Eiffel tower and also from German stations. The police, having heard that messages from Centocelle, near Rome, were overheard by Argentieri, seized all his apparatus, some of which was manufactured by the inventor.

EAT LESS MEAT IF BACK HURTS
Take a Glass of Salts to flush kidneys if bladder bothers you.
Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.
The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acids in the urine so it no longer irritates, thus ending bladder disorders.
Jad Salts cannot injure anyone; makes a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

Bayley vs. O'Leary.

Nanaimo, B.C., Oct. 5.—Joe Bayley and Johnny O'Leary were matched yesterday by Promoter McDonald to battle for the third time for the Canadian lightweight title, the contest to take place here on Saturday, October 17. O'Leary whipped Bayley in 15 rounds, and last summer they battled to a draw at Brickhouse Arena.

CANADIAN SILHOUETTES
The New Accent in the Upper Columbia Valley

CHANGE is busy in Western Canada. All classes back East and in the Old Country are contributing to the settling up of its expenses. But instead of the adventurers and the restless from various walks of life coming out here (with their love of roving for a quality in common), there come now ship-loads of one class, promenade-deck-fulls of another, each bunch, before it starts, with a fixed idea of where it is going to settle. With the wind that bloweth where it listeth the immigrants of today have much less in common than had those who flocked hither in the period of—for a good example —Morley Robert's "Western Avernus." They are going oot tae get a Joab whaur Tam went last year ye ken—aye, at Canada; or they are going to take a place, doncherknow, near Colonel Higginbottom, doncherknow, awfully jolly, any amount of sport, rippin' place.

Any one who knew the Upper Columbia Valley (that lies between Cranbrook and Golden) ten years ago would stand amazed if he visited it to-day. The stage-coach, driven by a young man wearing fringed gauntlets, is gone. They should do in Canada with the stage-coach, before it is too late, what they have done in London with the hansom—secure one for a museum. The motor car has ousted it; and though the life of the best car upon the rough wagon roads of the mountains is not a long one, there is always money to buy another. They take their cers almost anywhere, at top speed; and when the car "goes bust" they only laugh. Motor cars carry the settler to the Upper Columbia Valley, from Golden south, or from Cranbrook north.

The society of this most beautiful of valleys is now as follows: a few old-timers, most of them full of wild tales of the old days—all of which they do not tell; the old hotel-keepers; lumbermen coming from, or going to, camps in the hills; men who work on the wagon roads; teamsters from the livery stables; Kootenai Indians in a mixture of apparel—store clothes and deer-skin moccasins, cow-boy hats and bead necklaces. On top of this has come the great influx of the new type. A very charming hotel has been built in the heart of the Valley, and is greatly patronized by the newcomers. It has baths with hot and cold water. It is lit by acetylene gas. Enter, and stand amazed, hearing the voices with their "he-ah" and "they-ah." The old-timers have gone into their shells. They feel as if a descent of Martians has taken place in their midst. But when the newcomers have all their bungalows built, and a few trees stuck in, and the polo ground cleared, and have generally shaken down, doubtless they of the falsetto voices, and they of the quiet gruff ones, will come to understand each other.

Meanwhile the railway follows the motor car—that followed the stage-coach—that followed the pack train. The House of Progress is rising quickly.

BANKING FOR PRODUCERS.

Ontario, so the eastern papers say, is going to see two million dollars' worth of apples go to waste this fall because there is not the immediate market to absorb them, nor the available financial machinery to carry the crop forward in some form or other until the market presented itself in this country or some other.

At the same time there goes up from eastern Canadian cities the cry of the out-of-works who must be taken care of and who, with their dependents, must be fed.

These two circumstances, seen side by side, illustrate most clearly what it is that the Canadian banking system fails to do for Canada.

The man who, seeking employment, sees through the wayside fence trees loaded with apples which, by the application of his and others' labor, might become canned apples, dried apples, apple butter, apple cider or any one of a dozen characters of products, in a state of hermetically sealed preservation such as would outlast the pyramids, or who realizes that these apples, properly packed and placed in cold storage, would quite probably outlast the war, might be pardoned if he hurls a few anathemas at a system which allows those apples to go to waste at the same time and in the same place as his capacity to labor is going to waste and his kiddies are compelled to rely on charity for enough to eat.

Yet this is exactly what this wonderful banking system which we have built up in Canada does, and while the apples and the jobless men are a particularly spectacular case, the system does the same thing in a greater or less degree in every productive industry in the dominion.

No sooner does the sawmill, for instance, fill its last order than the plant, in the great majority of cases, is compelled to shut down and the men are out of work and unable to buy apples. The fishery works almost absolutely to its demand; when the immediate demand is not presented the boats tie up. The lead mines in British Columbia are having great difficulty in maintaining operations because the silver content of their ore—owing to the war situation—cannot be immediately forwarded to its ultimate market in Asia. All these industries interlock. Where one is affected all are affected. Where one man is out of work the loss radiates until it is shared by thousands.

These halts and jars to the machinery of production occur in peace times as well as during war—although the war accentuates and emphasizes them—and at the same time the banking report from month to month shows where enormous sums of the money necessary to maintain a steady production in Canada are being taken out of the country altogether and lent to the stock gamblers in New York, who do not produce and whose operations, on the whole, are a distinct handicap to production. What the war has pointed out in this latter respect is that this mobile reserve, which the banks allege their call loans in New York represent, has as great possibilities for being locked up as apples in the can, lumber in a pile, or silver in a safety-deposit vault.

What is needed in Canada, of course, is a banking system by which it would be possible to finance on any character of produced and transmutable wealth, in any place and at any time, and not necessarily with the consent of a privately-owned bank. Already this has been perfected in the matter of warehouse receipts and bills of lading for wheat, but President Wilson in United States is working out in his federal reserve board a system by which it will be possible to get the same accommodation on almost any staple product that the ordinary demands of commerce make fit security for discount. While the Wilson method is round-about, it contains the germ of what must be applied to remedy the situation in Canada.

In other words, it must be admitted that the banking system as at present construed in Canada, fails to suit itself to the requirements of a country which relies not on the thing called "finance," as does New York or London, but upon straight hickory-shirted production for its prosperity. The change that is necessary is to make the actual, tangible products the collateral, instead of stocks and bonds. The thing that is required is banking for producers and not for gamblers.

THE PROFOUND INTELLECT WHICH ERUPTS DIURNALLY IN THE JOURNAL.

Speaking about the immediate effects of the war upon the money situation, The Capital a week or so ago, said in these columns:

> In preparation for war Europe has been hoarding gold for years

and proceeded to tell something about the extent to which the hoarding of gold had been carried on by European governments, to show probably effects and to explain how, over night, as it were, the credit system upon which the world's business had been carried forward was completely dissolved, and the world suddenly thrust onto a basis where gold is the only international money.

Whereupon the column which the Journal palms off on a defenseless public as mental pabulum emitted something like this:

> THE ALLEGED
> HOARDING OF GOLD.
>
> Strange stories are afloat about enormous stores of gold which the nations of Europe have been hoarding in anticipation of the present war. They should be accepted with the utmost reserve.

and quite a lot more bash of that kind.

Now comes Will Payne, in the Saturday Evening Post, who, speaking of financial Europe's preparations for the war, says:

> Ever since 1912 there has been a pretty steady selling of foreign-held American securities.

And pointing out the extent to which this process of cashing in on United States securities in order to get gold into the European boards had been accelerated toward the last, he says:

> In the seven months (January to July, 1914) we exported eighty-three million dollars of gold—above imports of the metal—in part settlement of the debt.

The object of this he describes thusly:

> Her whole object in selling our securities was to get money, not credit; so whatever stocks and bonds we bought now would have to be paid for in gold.

And to make the thing plain in the reader's mind he prefaces his story with this:

> At the beginning of the last week in July the civilized world was going about its business as usual. By the end of the week, in Europe, all the vast machinery of credit and exchange by which that business is carried on had gone to smash.

The Journal will now kindly rise up and declare that Will Payne knows nothing whatever about the things he is writing about and that anyway the Saturday Evening Post could not be expected to understand these things so clearly as the profound intellect which erupts diurnally in the Journal.

JUST PARAGRAPHS.

Vienna has one hundred thousand unemployed. A million or so other Austrians have a steady job marathoning.

Children's Shoes
Should Be Carefully Chosen

When it is taken into consideration that the adults grace of carriage and lifelong foot comfort depends largely upon a wise choice of shoes for the child's feet, the shaping of this footwear becomes a matter of supreme importance.

The Children's Shoes which we carry are shaped exactly like the small feet for which they are designed and do not press or extort them.

We carry a very large assortment of Children's Shoes and the prices are right, so come and we will be pleased to show you them.

UNIVERSITY NEWS

The university of Alberta opened classes for the session of 1914-15 Wednesday last. Registration is going steadily. There is every indication that the freshmen class will be large, and that the attendance as a whole will show an increase over last year.

Building operations on the university campus have gone on briskly all summer. The arts building has reached the top storey, and the new laboratories are well on toward completion. Pembina hall, the third residence, is roofed in, and workmen are busily engaged in finishing the interior. The north wing is being prepared for the immediate installation of medical laboratories and class rooms.

The staff of instruction of the university of Alberta now numbers 40. Eight new members have been added for the work of this session, and some new appointments are still to be made.

Allan Emerson Cameron, M. Sc., lecturer in mining engineering and demonstrator in geology, is a graduate of McGill university. He received his master's degree for special work in the study of the combustion of coal and holds the Douglas fellowship in mining for the present year. Mr. Cameron has had a large amount of practical experience. He was engaged in transcontinental survey work during the winters of 1909 and 1910 with the G.T.P. railway, and during the summer of 1911 with the Hudson's Bay railway. For the last three years he has been connected with the geological survey. In 1912 he acted efficiently with Dr. Allan of the university of Alberta, in survey work in the Rocky mountains; the summer of 1913 he spent surveying in southern Saskatchewan, and that of 1914 in the coal and oil fields of southern Alberta.

Hector John McLeod, B. Sc., lecturer in electrical engineering, is a native of Prince Edward Island. He was educated at Prince of Wales college, then came west, took the normal school course in Alberta in 1907, and taught for two years in the southern part of the province. He then took a course in applied science at McGill university, specializing in electrical engineering and graduating in 1914, gold medallist of his year. Mr. McLeod has spent two summers in practical work with the Canadian Westinghouse company, Hamilton, Ont.

John B. Robertson, M.A. B. Sc., lecturer in analytical chemistry, is a graduate of the University of Edinburgh. His thesis on "The Chemical Examination of the Organic Matter in Oil-Shales," written as the result of his research work under the Carnegie scholarship which he won in 1912, has been published in the "Proceedings of the Royal Society of Edinburgh." Mr. Robertson lectured last year in chemistry at McGill university, from which institution he comes to the university of Alberta.

Two members of the teaching staff of the university of Alberta are fighting with the allies, while a third is with the Canadian expeditionary force.

Edward Sonet, who has been lecturer in French for four years and who was in France at the outbreak of the war, has joined the colors. He is now with his old regiment, the 106th Chasseurs d' Afrique (Algerian Light Infantry).

John Burgon Bickersteth, (Oxon), who was appointed lecturer in French in spring, had, as an undergraduate, three years of military training. He has obeyed Lord Kitchener's call for men and has enlisted as a trooper in the Yorkshire Hussars.

Temporary appointments in French will be made until M. Sonet and Mr. Bickersteth can again take up their duties.

Dr. Allan C. Rankin, M.D., C.M., D.P.H. (McGill), provincial bacteriologist and professor of bacteriology in the university, had served as captain in the army medical corps. When the war broke out he volunteered his services, and is now either at Valcartier or on the ocean with the first contingent of the Canadian expeditionary force. Dr. Rankin's experience in public health work and with those infectious and other diseases which are the special danger of camp life, makes his services of great value in the sanitation department of army and medical work.

A bulletin of information has just been issued by the institute of chartered accountants, giving details of the requirements in accountancy for the coming year. A new feature is the primary examination, which is equivalent to the matriculation examination of the university of Alberta in the subjects of English, history, arithmetic, algebra and geometry.

The lectures will be given each week for 25 weeks, the first on Tuesday evening, October 6, 1914, at 7.30, and the second on the same evening at 8.30. Further information may be obtained from the registrar, university of Alberta, or from the principal of Alberta college, north side.

During the summer S. R. Hosford has been with the department of extension of the university of Alberta, in the division of debating and public discussion. Briefs and packet libraries have been prepared on over 20 questions of public importance, for the use of debaters throughout the province. It is hoped that this work will still further increase the service which the department will be able to render to the general public during the coming winter.

The schedule of extension lectures for this winter is being prepared by the department of extension of the university of Alberta. Last year 153 lectures were given at 40 centres, 18 of which had courses of four or more lectures. This year courses may be arranged for, to be given between November 15, 1914, and May 1, 1915. Secretaries of organizations desiring such courses or single lectures should apply at once to the department of extensions.

Applications for travelling libraries should be sent in to the department of extension as soon as possible, as the demand threatens to be greater than the supply. Even during the busy summer months, 40 of these libraries have been constantly in the field and requests for information about them come in from new districts by almost every mail.

Already the Y.M.C.A. of the university of Alberta is busy. Its information bureau is established in the rotunda of Assiniboia hall, and is placing the experience in university and city life, of the senior students, at the disposal of the freshmen as they arrive. The 'Y' this year, for the first time, is to have the service of an intercollegiate secretary, and with M. W. Harlow, B.A., filling the position, it should be a valuable factor in the student life.

Thirteen schools have already entered the High school debating league for this term, and several others have expressed their intention of entering. It is expected that the contest for the Rutherford cup, now held by Camrose, will be a keen one. The subject for the preliminary debates is "The Consolidation of Rural Schools." Material on this subject has been collected by the department of extension, and packet libraries will be sent to the schools taking part.

A bulletin has been issued by the department of extension, setting forth the objects of the league and giving an account of the work done last year and the rules under which debates are held.

A "FAMILY" WAR

(From the Edinburgh Scotsman)

"Cousin," said King George of England.

"Cousin," responded King Christian of Denmark.

"Cousin," said the Czar of All the Russians.

"Cousin yourself," replied Kaiser Wilhelm of Germany.

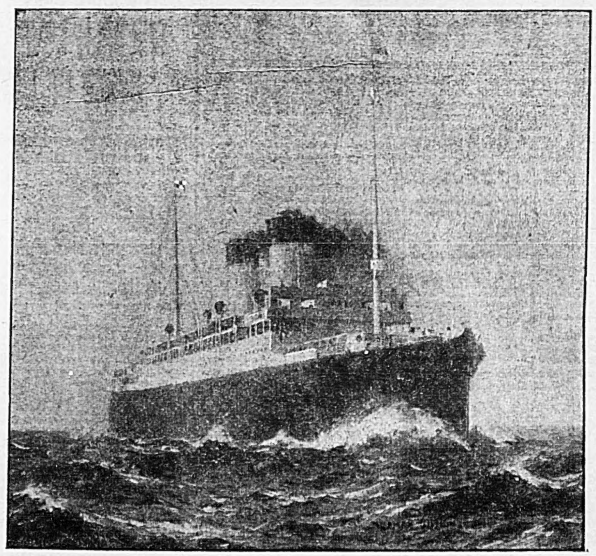

If all the heads of the nations embroiled in the European disturbances were to come together on some one field of battle, there would be a lively interchange of family greetings — unless the Royal relatives were too cross to speak to one another at all.

The following list gives some idea of how the various rulers are related:

1. King George V. of Great Britain and Ireland, everybody's cousin.
2. Tsaritsa of Russia, first cousin of King George and of Emperor William.
3. Emperor William of Germany, grandson of Queen Victoria.
4. Queen Maud of Norway, sister of King George.
5. Queen Sophia of Greece, sister of Emperor William.
6. Queen Victoria of Spain, first cousin of Emperor William, of King George, and of Tsaritsa of Russia.
7. Nicholas II., Czar of Russia, first cousin of King George.

Marriage is apt to prove a failure if the courtship stops as soon as the parson has tied the knot.

ONE OF THE NEWEST FLOATING PALACES

New Canadian Pacific liner, "Missanable," which sails from Liverpool October 7, on her maiden trip. She represents the very last word in safe, fast and comfortable ocean craft. She will sail from Montreal on the return trip October 22.

There Are Things in This Free Atlas Not Contained in Any Other Publication

The European war atlas, just off the press, which readers of the Edmonton Daily Capital may secure free, is filled from cover to cover with latest detailed maps, pictures and general information of Europe and the war that you never saw published before.

It's up-to-date, too, all of it. For example, the correct boundaries of the Balkan states at the time of the beginning of the present war are given, both in the big, colored, double-page map of Europe and in a similar map of central Europe. Very few atlases or maps give such up-to-date and reliable information.

The Capital carries the best and latest news. Besides war news it will carry full reports of the doings of the Alberta legislature, which meets in a few days; the dominion parliament, which will also meet this fall; the world's championship baseball games, which start October 9; and all the other late sporting and other news, including the famous Mutt and Jeff series of comic cartoons.

There is only a limited number of European war atlases. Make sure of your atlas and your Capital today.

The subscription price of the Daily Capital, payable in advance, to city subscribers is $2.00 for six months or $4.00 a year delivered at your door; to country subscribers by mail $1.50 for six months or $3.00 per year.

For every six-months subscription received while the supply of atlases last we will give one atlas free.

One who is now a subscriber to the Capital may get one of these atlases by forwarding the price for a renewal for six months after the date his present subscription is paid to.

Better still, if a subscriber whose subscription is paid induces a friend to subscribe for six months to the Daily Capital we will forward each an atlas free.

Mr. and Mrs. Geo. Hawkins are receiving congratulations on the arrival of a son.

* * *

Mr. and Mrs. Frank Smith are guests at the Palliser, Calgary, for a few days.

* * *

Mrs. W. H. Carter of this city is visiting her sister, Mrs. Clifford Black, 1722 Second avenue N.W.

* * *

Mr. W. Graydon, who spent a few days in town with Mr. and Mrs. G. H. Graydon, has returned to Calgary.

* * *

Mrs. Scott, Edmonton, who has spent the summer in Vancouver, has gone on to California, accompanied by her daughter, Miss Hazel Scott.

* * *

Mr. and Mrs. Ernest A. Burpee, of Stockholme, Sask., announce the engagement of their daughter, Anna Kathleen, to Alexander C. Williamson, Edmonton, Alta., the wedding to take place in December.—Winnipeg Telegram.

* * *

Mrs. Goodland's friends will be glad to hear of her. She is in London busily working with the Red Cross and the Ambulance association. Capt. Goodland is at present in Ireland as captain in the Munster Fusiliers and expects to go to the front any day.

* * *

Dr. Guy Cathcart Pelton, editor of the British Columbia Magazine, who is spending several weeks in Edmonton, is giving the total profits from the sale of his latest book, "Trails of the North," to the patriotic fund. The total profit from the local sale will be devoted to the Edmonton branch of the fund.

* * *

Mrs. W. J. McNamara invited the members of the Press Club in to tea on Friday afternoon to say au revoir to Mrs. Jeane Blewett, who leaves for the East directly. The hostess poured her own tea.

* * *

Miss Winifred Wait, 28 Twenty-first street, will be at home Monday, October 5, from four until six. All former students of the Ontario Ladies' college, Whitby, are invited to meet Miss Frank and business in connection with Trafalgar Daughters will be transacted.

* * *

On Saturday last Mr. and Mrs. C. W. Mathers entertained at their prety summer home in Hollyburn, West Vancouver, the members of Ruskin Chapter of the Daughters of the Empire. In the living-room, which was most beautifully decorated with autumn leaves and flowers, bridge was played in the afternoon and dinner served at 7 o'clock, while in the evening music and games made the time pass pleasantly.—Vancouver Province.

Mr. and Mrs. Mathers are former Edmontonians.

* * *

Mrs. Sam Field's artistic drawing-room, despite the unpleasant weather, was the center d'attrait of many callers when she held her post mutial reception. The bride wore her lovely wedding gown of white liberty satin, cut with the long court train, with garnitures of Spanish lace and pearls.

Mrs. John Gillespie, who received with her sister, wore a toilette of white Turkish towelling, overlaid with crepe, enhanced with Oriental embroideries in pink and blue ferns.

At the tea table, centered with ferns and sweet peas, Mrs. Farquharson, Mrs. W. W. Hutton and Mrs. Lorne Yorke did the honors. Assisting were Misses Mabel and Marie Finn, Miss Ada McAlpine and Miss Agnes Inagal.

Great purple asters graced the pretty room, wherein blazed a cheery fire.

* * *

The members of the Women's Canadian club amidst the rush of many calls, must not forget the patriotic meeting to be held next Tuesday afternoon at 3 o'clock in the lecture hall of First Presbyterian church. As this is the only occasion when those who are not members have been invited to attend, the club thinks this city should number 600 members instead of 400, and it is expected that after hearing Dr. Dyde's address, on Canada, all those present who are not members will wish to be. The national anthems of Great Britain, Russia, Belgium and Canada, sung by representatives of those countries, will be a feature of the meeting.

The Women's Canadian club of this city has donated $150 to the local patriotic fund.

* * *

The ladies Aid of First Baptist church will meet on Tuesday afternoon at 3 o'clock at the home of J. D. Roberts, 426 Thirteenth street.

TENDERS

Tenders addressed to the Undersigned will be received up till Twelve O'Clock Noon on Wednesday, October 7th, for the purchase and removal of the metal clad building situated on the lot adjoining the City Hall, on the South Side of the River on 83rd Ave. (formerly First Avenue North.)

The Highest or any tender not necessarily accepted.

CITY COMMISSIONERS.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strang at a time; by morning the grey hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy.

WEDDINGS

Cullis—Robinson.

The home of Mr. and Mrs. David Robinson, Callifero St., Stettler, Alta., was the scene of a very quiet but pretty wedding, when, at 6.30 a.m. on September 30, Myrtle G., their only daughter, was united in marriage to Harry M. Cullis, of the same place, Rev. J. P. Woodsworth, of Red Deer, performing the ceremony.

The home was prettily decorated with pansies and sweet peas, a beautiful bower in the drawing-room marking the scene of the ceremony. The bride, who entered the room on the arm of her father, was charmingly attired in ivory duchess satin and shadow lace and carried a bouquet of white roses and smilax.

Mr. H. J. Unwire played the wedding march and Miss Ollie E. Freeborn, of Caster, cousin of the bride, acted as bridesmaid wearing mauve crepe de chene trimmed with ermine and shadow lace cap, and carried pink and white carnations.

Mr. Ernest E. Brown, of Edmonton, supported the groom.

The groom's gift to the bride was a handsome set of Persian lamb furs, to the bridesmaid a gold bracelet, and to the best man and organist, pearl stick pins.

The bride's mother wore black silk with embroidered net tunic.

The bride and groom left on the early morning train for Calgary, Banff, and points west, where the honeymoon will be spent, the bride travelled in navy blue serge suit with hat to match.

Mr. and Mrs. Cullies will be at their home on Jamieson street to their many friends after November 1.

* * *

Perry—Atkinson.

A very pretty wedding was celebrated last evening at the home of Mr. C. H. Doney, 1314 Gladstone road, when Mr. Pat Hetherington Perry, of Chauvin, Alta., and Miss Flora Violet Atkinson, of Nova Scotia, were united in marriage by the Rev. W. F. Freeman.

A small company of friends were in attendance. The bride was prettily attired in white satin and carried a sheaf of white roses, and was attended by Mrs. Flora M. Cushing as matron of honor. Mr. C. A. Doney attended the groom.

After a delicious buffet supper the happy couple left on the midnight train for Edmonton, en route to their future home in Cauvin, Alta. The bride is traveling in a smart navy blue suit, with hat to match.—Calgary Ex.

* * *

Rev. Dr. D. G. McQueen, of First Presbyterian church, reports the following: Alexander Young, Sangudo, Alberta, and Miss Lena McGregor, South River, N.S.; James Harry Pike, contracter, and Mrs. Myrtle St. John; Arthur James Bingham and Miss Annie Gibson.

CANADIAN PAPER MILLS EXPERIENCE BOOM SAID TO BE UNPRECEDENTED

Toronto, Oct. 5.—The Canadian manufacture in news print has experienced the biggest boom in their history. While mills in nearly every other line of production have experienced a slump in orders, the paper companies are inundated with inquiries and demands, so that new mills and extensions to present ones are being discussed wherever pulp and paper makers meet. The export business has been subjected to a remarkable stimulation until news print matter is a matter of daily discussion. Manufacturers resolutely declined to be tied down to quotations for any considerable period.

Houseware and Washing Machine Bargains in the Basement Tuesday

CLOTHES HAMPERS HALF PRICE

Extra strong and well made clothes hampers, medium large and extra large, solidly woven from sap-peeled willow; square, round and triangular shapes; regular $2.75 to $6.00. Tuesday ½ Price

EXPECT FUND TO REACH $100,000

Canadian Patriotic and Relief Campaign Is Still on in Edmonton.

$55,000 COLLECTED SO FAR

Other Large Concerns Arranging to Give Portion of Monthly Salaries.

In two weeks, about $55,000 has been realized in the course of the financial campaign of the Canadian patriotic and local board of public welfare funds, and an urgent appeal is now made by the joint committees and collecting staff for that total to be raised to $100,000 by the people of Edmonton.

It is felt that this will not be difficult of accomplishment, or not too much to ask for, inasmuch as that several good donations are known to be still under contemplation, and likewise for varying reasons there are still many lists to reach the offices from collectors.

A very considerable proportion of citizens and large institutions responded promptly and generously and the committees now ask for a similar measure of support from those who are able to help but have not yet made known their proposed contributions.

A number of people may have been away, others perhaps ill, while many may have been awaiting a more practical date for drawing the check. Some employers have not yet arrived at a mutual agreement with their men for proportion of wages to be deducted or for how many months. Also the inclement weather has been adverse to the collectors' operations and the cheerfulness, etc., of the giver.

All are reminded, however, that the camp headquarters at 44 Jasper west (phone 2256) are not yet closed, and that the general offices, 515 and 516 Civic building (phone 2366) will continue to remain open for business. Officers of the joint committees and staff, together with the campaign manager and his 200 canvassers, are all working as hard as ever, organizing and giving relief, or getting in more funds; and it is sincerely trusted that the urgency of this appeal will be realized by all those who have not yet been able to respond.

GERMANS CIRCULATE BREEZY REPORTS OF COLOSSAL VICTORIES

London, Oct. 5.—The Petrograd correspondent of the Standard recounts some of the fanciful stories which under German auspices are being circulated in Russian Poland for the purpose of terrifying the natives. In Polish towns which have been occupied by the Germans ever since hostilities begun, it is said that a trainful of Russian soldiers fell into the river Vistula; Kaiser Wilhelm has imposed upon France a war contribution of forty millions of francs. Gibraltar has been annexed to Germany, and Roumania has sent her troops to Kiev to fight against Russia; the Germans daily gain colossal victories and capture entire Russian corps; there is not a single Russian soldier in east Galicia and the last four hundred Russians who evacuated it were drowned in the river.

In the last edition of the Sosnowitz Iskra, the announcement is made in large type that the Austrians have captured Ivangorod and Warsaw.

Some Cheap Horses

Quebec, Oct. 5.—Of the 8,000 horses that were in Valcartier camp before the contingent moved out, about 200 remain. These 200 are the sick and injured of the animals that were brought here to be shipped for the front. Many of them are in a shocking condition, and as a result of a stampede a few days ago, nearly 100 were so badly injured that they have been sold for one dollar each.

Pittsburg needs more school teachers.

TORONTO IS SWAMPED BY HAMILTON IN RUGBY GAME

Score Was 22 to 2—Manson Made Sensational Runs—Game Was too One Sided and Very Small Crowd Witnessed it.

Hamilton, Ont., Oct. 5.—Hamilton followers of rugby did not warm to the clash between the Tigers and the Toronto Rowing and Athletic teams here Saturday afternoon. The smallest crowd that ever attended a senior fixture in this city greeted the players when Referee McArthur got the game under way.

Toronto won the toss. Hamilton secured at their own 30 line and Leckie ran 40 yards. Mason went through the center for a touchdown, which was not converted. Score first quarter: Tigers 5; Toronto 0.

Mahan hooked over the line to Vivian, Clark forcing him to rouge. Hefferman ran 35 yards. Degruchy jaunted to Palmer, who was forced to rouge. Stuart went through the center for a touchdown, after Manson had made a 45 yard run. It was converted just as the half time whistle blew. Score: Tigers 12, Toronto 1.

Degruchy kicked to the dead line for another Toronto point. Degruchy a moment later pulled a costly miss play. He caught a punt and Fickley, the Tigers quarter, in this half, who over ran him, hollered "Here." Degruchy tossed to Flexley, who scampered over for an easy Tiger try. It was not converted. Score: Tigers 16, Toronto 2.

Hefferman went around the right end for a gain of 30 yards and Moore backed five yards, but on the next down, Tigers secured on an offside in the scrimmage and Thompson went around the left end for a big gain. Manson broke through for a touchdown which he converted.

Final score: Tigers 22; Toronto 2.

Regina Wins Again

Moose Jaw, Sask., Oct. 5.—Moose Jaw 11, Regina 1., was the Rugby game score here Saturday. The local men had the game in hand in the first quarter and the final score while not grudged the visitors, was hardly the sum of the contest according to the majority of the spectators.

CHALMERS PRIZE AWARDED IN THE MAJOR LEAGUES

Collins in American and Evers in National Each Get Automobile.

Chicago, Oct. 5.—Eddie Collins, of the Philadelphia team of the American league, and John Evers of the Boston National team were on Saturday declared winners of the 1914 trophy presented by a Detroit Automobile manufacturer to the player whose services were most valuable to their respective teams.

Each will receive an automobile as a prize. The vote of the trophy committee was canvassed here yesterday with the result that Collins received 63 out of a possible 64 points, while Evers received 50 out of a possible 64 points.

Walter Maranville, of Boston, ran Evers a close race for the National league result and the result was not known until the last vote was counted.

The former winners of the trophy were:

American league: 1911, Ty Cobb; 1912, Tris Speaker; 1913, Walter Johnson.

National league: 1911, Frank Schulte; 1912, Larry Doyle; 1913, Jake Daugert.

GERMAN ARMY BECOMES DEMORALIZED, OPINION OF MANY AT THE FRONT

London, Oct. 5.—The Daily Mail's correspondent in France reports fighting in and around Doual, in the department of Nord, 18 miles south of Lille, and considers that if the French have reached Doual in force the situation of the German General Von Kluck must be desperate.

"General Von Kluck" the correspondent says, "has had all the reinforcements which can be spared him and yet finds himself out-numbered at every point. There are many indications from German prisoners, from French officers and from members of the British service, the combined testimony of whom it is difficult to disbelieve, that the German army is becoming demoralized. The timidity of the German outposts who surrender when surprised is strong evidence of their demoralization."

Jettie Cowgill, of Lehanon, Del., was struck by lightning the other day. Cured her of a bad case of warts.

CANADIAN FORESTERS MAKE LIBERAL GIFTS TO MEMBERS AT WAR

G. N. Jewell, 522 Carey street, district organizer of the Canadian Order of Foresters, has issued the following statement:

"The position of the executive committee of the Canadian Order of Foresters with reference to those of its members who already have, or may hereafter enter the active service of Great Britain, or any of Britain's allies in the present war, is as follows:

"The insurance and sick and funeral benefits of all members admitted to the order prior to August 1, 1914, will be good and valid, notwithstanding that they serve in the armies or navies of Great Britain or any of Britain's allies in the present war.

"2. The insurance and sick benefit premiums or assessments of those members admitted prior to August 1, 1914, serving as aforesaid, will, during the war, or for one year should the war last longer, be paid out of the general fund of the high court.

"3. This provision for payment of premiums or assessments is not by way of loan, and will not be a charge on the policy. It is a gift or bonus to those who take up arms in defence of the empire in the present crisis.

"4. If the war should last longer than one year we hope to be able to renew this bonus."

Carcee Indians Subscribe.

Calgary, Oct. 5.—The Sarcee Indians will give $500 to the patriotic fund. Through the Indian agent, Fleetham, the chiefs have requested the government to deduct this sum from the tribal funds.

FIRST BILLIARD MATCH TAKEN BY AMERICAN CHAMP

Willie Hoppe Wins Over Melbourne Inman by Score of 4,285 to 3,703.

New York, Oct. 3.—Willie Hoppe of this city, champion balk line billiard player of the world, won the international combination of English and balk line match Saturday night, beating the world's champion at English billiards, Melbourne Inman, of Twickenham, England, by a total score of 4,285 points to 3,703. The match consisted of five 600 point games at the English style and six 500 point games of 18.2 balk line. Each man scored 3,000 at his own style of play, but Hoppe proved more expert in playing the game that was foreign to him than Inman was at balk line. Hoppe, in the five English games, scored 1,285 points, while Inman made only 703 caroms in six balk line contests.

Each showed during the week here that he was worthy the world's title at his own game. Hoppe, on three occasions gave brilliant exhibitions, the best of them being a run of 193 in Saturday night's game. He nursed the ivories at the top of the table for this run, during which he resorted only three times to a drive of either object ball the length of the table for position. He was making an effort to make the high run of the match, but slipped up when he made a count which failed to get either ball out of balk. The high run of the match—221—was made by Inman on the English table last night.

The match just ended is the first of a series of five which will be concluded at Chicago and three Canadian cities within the next five weeks.

THOUSANDS OF BELGIAN REFUGEES ARRIVING AT DUTCH TOWN OF ESCHEN

London, Oct. 5.—An Amsterdam despatch to Reuters says that on Friday and Saturday thousands of Belgian fugitives arrived at the Dutch town of Eschen and towns around Antwerp. There were men, women and children, but mostly children. It was impossible to house all the fugitives at Eschen, and many were taken by trains to the neighboring towns.

Directors Took Coin.

Petrograd, Oct. 5.—The Slowo Potski, a newspaper published in Lemberg, Galicia, says that before Lemberg was taken by the Russians the directors of the local banks left the town carrying with them the deposits of their clients.

Cargo of Dye-Stuffs.

Washington, Oct. 5.—Private interests have chartered the American steamship Matanzas for a trip to Rotterdam to bring back a cargo of dye-stuffs and other chemicals.

OLYMPIC BOWLING TOURNEY IS FINISHED ON SATURDAY

Herron and Binder Captured Doubles With 1118—Bruce Stark with 613 Took Singles—Jarvis Had 14 Splits in Six Games.

Play in the handicap bowling tournament was concluded at the Olympic alleys on Saturday evening, the competition being an entire success throughout. Everything passed off smoothly and there were no complaints registered indicative of any dissatisfaction.

The score of 1,118, set by Heron and Binder, was sufficient to capture first place in the handicap doubles with Stark and Critchley a close second the latter registering 1,116, only two pins behind the leaders. Rose and Godson, with 1,074, took third money. The prizes for this event were $8, $4.50, and $2 for first, second and third places respectively.

In the handicap singles Bruce Stark took first money with a count of 613, annexing $7. The other prize winners were McPhee, 599, $4.50; Blouin, 584, $3; Lain, 580, $2.50; Godson, 576, $2.

The following were the winners of the special prizes: Grand aggregate, cuff links presented by D. A. Kirkland, won by Godson with 1,185.

High single game, box of cigars, presented by R-Jay Cigar store, and won by Bruce Stark with 251.

Least errors in six games, cap presented by Hamilton Milne and won by E. V. Critchley, with one error.

Most splits in six games, neckties presented by Stanley and Jackson, and won by Professor Jarvis with 13 splits.

Most splits in three games, box chocolates presented by Chas. Hepburn, and won by Professor Jarvis with seven splits.

Following are the scores for the tournament:

Heron-Binder (189)	1,118
Stark-Critchley (18)	1,116
Godson-Rose (84)	1,074
Grandage-Abrams (45)	1,062

CLAIMS M'GRAW WILL JOIN FEDS

Story that Giant Manager Will Manage Outlaw Team — Denies Rumor.

Chicago, Oct. 5.—A story printed here Saturday says the Federal league has offered John J. McGraw, now manager of the Giants, the leadership of a Federal league team to be placed next year in New York. The story hints McGraw is dissatisfied with a clause in his contract which provides that he draw $20,000 a year if the Giants finish first or second. Members of the Ward family, holders of the Federal franchise in Brooklyn, are said to have made McGraw the offer. The story says the Indianapolis team is to be placed in New York if McGraw will take its management.

The Brooklyn Federals are said to have signed Walter Johnson, Ray Collins, Hans Lobert, Sherwood Magee and Charles Doolin.

McGraw Laughs

New York, Oct. 5.—The officers of the New York National league club laughed heartily when they heard the story intimating that McGraw might manage a Federal league club next season. Secretary Foster stated that McGraw was bound to the club by a cast iron contract which had several years yet to run. He said:

"This is just another example of the ridiculous yarns spread broadcast by the Federal league, which is dead so far as major league baseball is concerned."

Manager McGraw when quetsoined regarding the report, said:

"It is a joke yarn. I would not manage a Federal league baseball club at any price if I was a free agent."

WINNIPEG ROWING CLUB NOW EVEN WITH TIGERS

Winnipeg, Oct. 5.—Winnipeg Rowing Club tied up the race for senior rugby honors Saturday afternoon, when they defeated the Tigers, winners of the opening game, by 8 points to 3. All eleven points were the result of long kicking, the game being a booting duel in which Bennett of Rowing club, beat Horland of Tigers. Rowing club showed vast improvement in their line, the defensive work of both sides being more effective than the offensive work.

The first directory of London was published in 1677 and consisted of 120 pages.

FOR SALE OR EXCHANGE

GOOD HOUSE IN WEST END TO TRADE for farm. Chubb Land Co., 'Phone 1221, 18 Benson Blk. O-C

FARMS FOR SALE

160 ACRES, clay loam, fenced, frame house, good well, stable, 20 acres under cultivation, crop cash, $900 down payments at 5 per cent; for particulars apply 11033 Namayo avenue. Phone 5903.

FARM FOR SALE AND RENT—WILL sell 160 acres, about 50 acres under cultivation, fair buildings, good well, all fenced, all steam plowed land; also rent the adjoining 160 acres with equal improvements, situated 60 miles west on main line of G.T.P. and only 2½ miles from town. Any person with a reasonable amount of cash will get a good chance to get a good home. Apply owner, 429 10th Ave.

SECTION 21-49-11-4—11 MILES FROM Innisfree on the G.N.R., and 18 miles from Viking on the Grand Trunk Pacific. The Lloydminster-Dewinton line of the C.P.R. will give a town much nearer than either of these. This land is on the shore of Lake Alice, a deep and pretty body of water giving this property a mile of lake front. The lake cuts into the section, leaving 394 acres of the possible 640. The entire 394 acres lays in a body, is all fenced and cross-fenced, has 110 acres broken, no waste land, lovely soil, dry, no stones, one and one-half miles from school, and has a strong flow of water both summer and winter, and a living spring. Price $14.50 per acre. An important consideration is the fact that it is possible to secure a homestead within five miles of this land, thus making it possible to prove up on 160 acres free of cost without occupying other than the farm above described. P. M. Bonnanzing, Room 18, Benson Blk. Phone 1221. Alberta Homeseekers' Inv. Co. O-C

STALLS IN MARKET CLEAN AND TASTY

Wealth of Edmonton-grown Vegetables Seen in Modern New Produce Emporium

BASKETS ARE THE FASHION

Large Crowds Visit New Market First Day and Are Well Pleased with Prices.

A large and expectant crowd lined up in front of the Empire building on Saturday morning, eagerly waiting for the opening of the new central public market. Over 400 people were in the crowd, many of them ladies carrying baskets, eager to do their household buying and test the possibilities of the new institution, and when the doors were opened at 11 o'clock there was an excited rush into the building.

The first 20 women with baskets who entered were given prizes, each receiving a dressed chicken, whilst others somewhat behind them were fortunate enough to receive, as their reward in patronizing the market, baskets of vegetables.

The interior of the building presented an inviting appearance. About 40 stalls, tastefully dressed and loaded with all kinds of provisions, dressed meats, poultry, dairy products and vegetables, were fitted up and immediately their keepers were busily engaged in supplying the wants of customers. A large quantity of the vegetables offered for sale were grown in the Edmonton district, and showed what can be done by horticulturists here.

An attractive feature of the market is its cleanliness and the handy arrangement of the stalls. No debris is allowed to lie around annoying the customers and detracting from the tasty appearance of the wares, a number of employees being constantly engaged in collecting all refuse.

Business continued brisk during the day, and, notwithstanding the inclement weather, a constant stream of people were to be seen wending their way to the mart. The large crowd was good humored and seemed well satisfied with the market and the prices they had to pay.

Prices were as follows: Beef ranged from 8 cents to 14 cents a pound. Pork was offered at from 10 cents to 18 cents, according to cut. Celery was sold at 5 cents per head; cauliflowers ranged from 5 cents to 15 cents; cabbages, 5 cents; radishes, onions, carrots and beets at three bunches for 10 cents; potatoes from 50 cents to 60 per bushel. Butter sold at 25 or 35 cents, according to quality and eggs were quoted at from 20 cents to 35 cents per dozen.

SPEAKERS AT THE FORUM ON WAR NOW AND FUTURE

"God and the War Spirit" was the subject of an address by Rev. A. J. Pineo at the People's Forum Sunday night. Mr. Pineo is the minister at the New Thought temple in the city. War and strife, he believed, was the law of life and growth. He was inclined to believe that wars would always be, but that they would be ultimately lifted to a higher plane.

The views of many of the speakers that followed him did not coincide with the speaker. These included Joseph A. Clarke, William Brown, Ed. A. Smith and W. B. Turner.

Mr. Brown thought that wars were caused by the arms companies and by the armament builders and that war should not be charged to God's plan.

Mr. Clarke believed that the churches had lost their great opportunity as peace exponents by failing to protest against the war at a time when their protests might have accomplished some good.

"The Causes of the War—Apparent and Real," will be the subject for next Sunday, and the discussion will be led by Dr. H. Darling.

LAWYER FINED $25 AND COSTS OR ONE MONTH FOR BEATING HIS WIFE

How a man of your education and profession could ever fall so low is beyond my comprehension," said Magistrate Massie in the police court Monday morning to L. W. Brown, a well-known city lawyer, who pleaded guilty to a charge of wife beating. A fine you $25 and costs, or one month in jail, and in addition you will furnish a bond of $1,000 as a guarantee that you will keep the peace for one year."

Brown was arrested on Saturday evening, and stayed in the cells over Sunday. His wife, carrying a black eye, the result of her husband's blow, appeared in the court, but did not go on the stand.

During the time he was on the stand Brown was decidedly nervous, and beyond saying "Guilty," was silent.

Boston has 107,572 names on its primary voting list.

EDMONTON IN BRIEF

The members of the Canadian club and Women's Canadian club and their friends will be very welcome at the patriotic program of music and lecture on Canada by Principal Dyde of Robertson college, to be given in the first Presbyterian church lecture hall, Fifth street, on Tuesday at 3 o'clock.

Large audiences were present at the special evangelistic services begun Sunday in the First Baptist church. At the evening service Rev. W. Patterson spoke on "The Love of God." The services will be continued each evening this week at 8 p.m. The musical service will be led by a full choir, and Mrs. Aldrich, J.C., contralto soloist, will sing each evening. These services are open to all who care to attend.

Dr. Chone Oliver of the W.M.S. of Munuch, India (Canadian Presbyterian mission) will address a combined meeting of the Young People's guild of the Presbyterian churches of the city in the lecture hall of First Presbyterian church, Monday evening at 8 o'clock. All interested in the work in India are invited.

James Edward Olney who lives on Otter street, has three sons serving under the British flag and the fourth is getting ready to go. One of them is in France now, under Sir John French, serving in the East Yorkshire regiment, Harry Olney left Edmonton with the 101st Fusiliers. Richard, another son was with the troops at Valcartier, having gone from London, Ont. Edward, the only son remaining at home, served in South Africa and spent five years in India. He will join the next contingent going to the front. Mr. Olney is well known here. For three years he was employed at the C. P. R. freight sheds.

A meeting of printers' mothers, daughters and wives will be held in Oddfellows' hall, Namayo avenue on Wednesday afternoon at 3 o'clock to consider the advisability of forming a ladies' auxiliary.

MANY NEW COMPANIES TO CARRY ON BUSINESS

Recent incorporations of new companies as announced in the Alberta Gazette are as follows:

Richmond Oil and Gas company, limited, Calgary, $1,000,000; the Natdenac Oil and Gas company, limited, Edmonton, capital $1,000,000; the Grant Brook Marble company, limited, Edmonton, capital $50,000; Industrial Motion Picture company (Canada), limited, Calgary, capital $10,000; Westminster Apartments, limited, Calgary, $125,000; Peace River Cooperative company, limited, Edmonton, $200,000; Arrowhead Oil company, limited, Calgary, $500,000. The following companies have received certificates of registration in the province: Insurance and general agency, limited, Winnipeg, $10,000; Hayhoe Lenenberg Manufacturing company, St. Louis, $100,000; Mordo Oil company, Spokane, $1,000,000; Morleyville Oil and Gas company, Spokane, $500,000; Hamblin and Brereton, limited, Winnipeg, $100,000; the Lanarkshire Alberta coal company, limited, Edinburgh, $10,000. There has also been an increase of capital stock of the White Ash Collieries, limited, from $25,000 to $200,000.

PERHAPS IT DOES NOT PAY TO MAKE HAY HERE

"I am going to appeal this case," said Joseph Hesdoefer defending to Magistrate Massie, after he had been ordered to pay $10 in wages to W. Springer, whom he had hired as a farm laborer.

Springer stated that he went out haying for his health as he suffered from indigestion, and he thought the odors from the new mown might aid him. Hesdoefer was his employer, but they did not get along very well, and finally Springer was beaten up. About a week ago he brought an assault charge against Hesdorfer, but it was dismissed, and later he attempted to collect his wages without success.

Hesdoefer would not admit that Springer worked at all, but as he was not sure the court allowed the claim.

BELGIANS IN ANTWERP CONFIDENT; POSITION STATED BE EXCELLENT

London, Oct. 5.—A despatch to the Exchange Telegraph company from The Hague says:

"Refugees arriving here from Antwerp say the position of the Belgian forces is excellent, and that the German advance has been steadily checked. The forts are admirably resisting the heavy German artillery fire.

"In the city of Antwerp itself great hopes are entertained of a final victory. There is not the slightest panic. King Albert is continually in the trenches, personally conducting operations.

"The king stayed in one of the trenches for over 20 hours, without resting."

Adventures of Clothes

Chris Johnson and his wife, formerly took in washing for about a year and a half ago, they moved to the country. When they left the city they took with them a large quantity of laundry, the property of Mrs. Springer, a keeper of rooming apartments.

The linen remained on Johnson's farm until September, when Mrs. Springer got trace of it. Accompanied by Detectives Smith and McIvor she paid a visit to the country one day and recovered the goods, still in an unwashed condition. Some of it was found on the beds and around the house, although the greater part of it was in a trunk.

In the police court Mrs. Johnson pleaded that she had been too busy on the farm to wash it and she did not like the idea of returning it in a dirty condition. The case was adjourned until the afternoon.

Canadian Western Lumber Co., of New Westminster, British Columbia, which operates one of the largest sawmills on the continent, has had moving-picture films made of the various units of the plant.

ALBERTA OFFICIAL TAKES IMPORTANT PART IN CONGRESS

Time Coming When Policemen Will be Judged by Fewest Number of Arrests.

VOCATIONAL SCHOOLS IN ASSIMILATING FOREIGNER

Back to Land Cry Hollow Unless Drudgery of Farm Life is Overcome.

St. Paul, Oct. 5—Prevention is the big word of the prison congress convened here this week. Singularly enough the report on that important branch of the work has been intrusted to H. B. Chadwick, superintendent of dependent and delinquent children in Alberta. The report as read today, was a comprehensive resume of the modern movements looking to the reduction of the criminal class. Among these special stress was laid on the work of the children's aid societies. By these agencies boys and girls are taken from dark and filthy surroundings, given proper medical treatment and placed in the homes of foster parents. The value of this work can only be reckoned in terms of the value of a girl or boy to the community.

Closely associated with the work of the children's aid societies is that exercised by the day nurseries, children's boarding homes, free hospital clinics and kindred institutions.

Mr. Chadwick laid particular emphasis upon the necessity of socializing the police force. "Unfortunately," said he, "the average interpretation of the merit of the policeman is that he has secured a larger number of convictions and made a larger number of arrests than any other man. The time is gradually dawning, however, when the policeman will be recognized for ability to handle his district without arrest or conviction. A large number of these will be taken as evidence of his inability to handle that district as it should be handled."

Effect of Conditions

A large part of the report was given to a consideration of the effect of certain economic conditions in criminal production. Among the relieving features mentioned were the workman's compensation act, factory act prohibiting the employment of children 14 years of age and regulating the hours of those employed. The value of a minimum wage clause and the necessity of giving serious consideration to the question of employees in large departmental stores were particularly stressed. Naturally the report dealt at some length with the good work that is being accomplished by the juvenile courts. Probation officers were spoken of as "big brothers" diverting the energies of mischievous boys into other channels and substituting a christian man for a "Jesse James" as their type of hero. Juvenile courts have succeeded in absorbing into the community the boys and girls who have heretofore been regarded as outlaws.

Public playgrounds, boy scout and boy club movements were commended, especially where competent leadership could be secured. The possibility of widening the circle of influence of the church and the public school through the adoption of the social center ideal was strongly recommended.

The Foreign Population

Speaking of the difficulty of dealing with the foreign elements of the population, Mr. Chadwick said: "From the moment the foreigner leaves his native land, frequently the victim of the persuasive powers of steamship or land agencies, until he is well settled in his new home, he is looked upon as a good thing to be worked. He is debarred from the best society and has little opportunity of bettering his position in life. The bright side in the problem is that the vocational school idea is taking root. The children are classified according to their various capacities and are beginning to find expression in lines heretofore closed to them."

Reference was made to the method by which the country districts are robbed of their best life. "Back to the Land," has become the slogan of many earnest workers who desire to eliminate the cesspools of the city. The cry is a hollow one unless it is possible to overcome the drudgery that is part of the life on the farm. The daughters of the farmers find their livelihood in the stores and offices of the cities, and the sons as mechanical and general workers, with the result that the farms are deserted by the younger life, and the cities are flooded with labor that is unequipped. The result is discontent and later crime.

The report closed with an urgent plea that some serious consideration be given to a more humane and intelligent way of caring for the feeble-minded.

As usual the congress has attracted a great many delegates from every part of the continent. Discussions covering a wide field and a great variety of subjects are occupying their attention.

At the S. A. Citadel

Services in the Salvation Army Citadel, Sunday were largely attended, Adjt. and Mrs. Habkuk, having charge of all the gatherings and the speaking and singing were much enjoyed.

In the afternoon the beautiful citadel band visited the city hospitals, where the music was much enjoyed by the patients. Adjt. Habkuk wishes to express his thanks to the gentleman who kindly loaned their automobiles to convey the band to the various institutions.

A special service is arranged for Thursday evening of this week, when Adjt. Habkuk will endeavor to carry out a startling announcement made yesterday, viz: That he would sing for one hour without stopping, "sixty songs in sixty minutes." This promises to interesting as well as novel.

Major and Mrs. Moore, from Toronto, will conduct services in the citadel on Saturday, Sunday and Monday, October 10, 11 and 12

STOCK REDUCTION SALE Begins Tuesday a.m. DRESS GOODS Continues Through Week

A Mighty "BOMBARDMENT" to Speedily Reduce Surplus STOCKS PRICES Take a BIG TUMBLE

BUYING IN BRITISH MARKETS at import prices has apparently induced our Dress Goods buyer to overstep his buying limit, which, by the way, is not to be wondered at, after spending an hour or so looking over these magnificent goods and noting prices.
HOWEVER, be that as it may, we have more goods in this Dept. than our hard and fast store policy will permit. The monthly stock cards are the evidence in black and white, hence

STALLS IN MARKET CLEAN AND TASTY

Wealth of Edmonton-grown Vegetables Seen in Modern New Produce Emporium

BASKETS ARE THE FASHION

Large Crowds Visit New Market First Day and Are Well Pleased with Prices.

A large and expectant crowd lined up in front of the Empire building on Saturday morning, eagerly waiting for the opening of the new central public market. Over 400 people were in the crowd, many of them ladies carrying baskets, eager to do their household buying and test the possibilities of the new institution and when the doors were opened at 11 o'clock there was an excited rush into the building.

The first 20 women with baskets who entered were given prizes, each receiving a dressed chicken, whilst others somewhat behind them were fortunate enough to receive, as their reward in patronizing the market, baskets of vegetables.

The interior of the building presented an inviting appearance. About 40 stalls, tastefully dressed and loaded with all kinds of provisions, dressed meats, poultry, dairy products and vegetables, were fitted up and immediately their keepers were busily engaged in supplying the wants of customers. A large quantity of the vegetables offered for sale were grown in the Edmonton district, and showed what can be done by horticulturists here.

An attractive feature of the market is its cleanliness and the handy arrangement of the stalls. No debris is allowed to lie around annoying the customers and detracting from the tasty appearance of the wares, a number of employees being constantly engaged in collecting all refuse.

Business continued brisk during the day, and, notwithstanding the inclement weather, a constant stream of people were to be seen wending their way to the mart. The large crowd was good humored and seemed well satisfied with the market and the prices they had to pay.

Prices were as follows: Beef ranged from 8 cents to 14 cents a pound. Pork was offered at from 10 cents to 18 cents, according to cut. Celery was sold at 5 cents per head; cauliflowers ranged from 5 cents to 15 cents; cabbages, 5 cents; radishes, onions, carrots and beets at three bunches for 10 cents; potatoes from 10 cents to 60 per bushel. Butter sold at 25 or 35 cents, according to quality and eggs were quoted at from 20 cents to 35 cents per dozen.

SPEAKERS AT THE FORUM ON WAR NOW AND FUTURE

"God and the War Spirit" was the subject of an address by Rev. A. J. Pineo at the People's Forum Sunday night. Mr. Pineo is the minister at the New Thought temple in the city. War and strife, he believed, was the law of life and growth. He was inclined to believe that wars would always be, but that they would be ultimately lifted to a higher plane.

The views of many of the speakers that followed him did not coincide with the speaker. These included Joseph A. Clarke, William Brown, Ed. A. Smith and W. B. Turner.

Mr. Brown thought that wars were caused by the arms companies and by the armament builders and that war should not be charged to God's plan.

Mr. Clarke believed that the churches had lost their great opportunity as peace exponents by failing to protest against the war at a time when their protests might have accomplished some good.

"The Causes of the War—Apparent and Real," will be the subject for next Sunday, and the discussion will be led by Dr. H. Darling.

LAWYER FINED $25 AND COSTS OR ONE MONTH FOR BEATING HIS WIFE

How a man of your education and profession could ever fall so low is beyond my comprehension," said Magistrate Massie in the police court Monday morning to L. W. Brown, a well-known city lawyer, who pleaded guilty to a charge of wife beating. "I fine you $25 and costs, or one month in jail, and in addition you will furnish a bond of $1,000 as a guarantee that you will keep the peace for one year."

Brown was arrested on Saturday evening, and stayed in the cells over Sunday. His wife, carrying a black eye, the result of her husband's blows, appeared in the court, but did not go on the stand.

During the time he was on the stand Brown was visibly nervous, and beyond saying "Guilty," was silent.

EDMONTON IN BRIEF

The members of the Canadian club and Women's Canadian club and their friends will be very welcome at the patriotic program of music and lecture on Canada by Principal Dyde of Robertson college, to be given in the first Presbyterian church lecture hall, Fifth street, on Tuesday at 8 o'clock.

Large audiences were present at the special evangelistic services begun Sunday in the First Baptist church. At the evening service Rev. W. Patterson spoke on "The Love of God." The services will be continued each evening this week at 8 p.m. The musical service will be led by a full choir, and Mrs. Aldrich, J.C., contralto soloist, will sing each evening. These services are open to all who care to attend.

Dr. Chona Oliver of the W.M.S. of Munuch, India (Canadian Presbyterian mission) will address a combined meeting of the Young People's guild of the Presbyterian churches of the city in the lecture hall of first Presbyterian church, Monday evening at 8 o'clock. All interested in the work in India are invited.

James Edward Olney who lives on Otter street, has three sons serving under the British flag and the fourth is getting ready to go. One of them is in France now, under Sir John French, serving in the East Yorkshire regiment. Harry Olney left Edmonton with the 101st Fusiliers. Richard, another son was with the troops at Valcartier, having come from London, Ont. Edward, the only son remaining at home, served in South Africa and spent five years in India. He will join the next contingent going to the front. Mr. Olney is well known here. For three years he was employed at the C. P. R. freight sheds.

A meeting of printers' mothers, daughters and wives will be held in Oddfellows' hall, Namayo avenue on Wednesday afternoon at 3 o'clock to consider the advisability of forming a ladies' auxiliary.

MANY NEW COMPANIES TO CARRY ON BUSINESS

Recent incorporations of new companies as announced in the Alberta Gazette are as follows:

The following companies have received certificates of registration in the province; Insurance and general agency, limited, Winnipeg, $10,000; Haynes-Lenenberg Manufacturing company, St. Louis, $100,000; Mordo Oil company, Spokane, $1,000,000; Morleyville Oil and Gas company, Spokane, $500,000; Hambbin and Brereton, limited, Winnipeg, $100,000; the Lanarkshire Albertan company, limited, Edinburgh, $10,000. There has also been an increase of capital stock of the White Ash Colleries, limited, from $25,000 to $300,000.

PERHAPS IT DOES NOT PAY TO MAKE HAY HERE

"I am going to appeal this case," said Joseph Hesdoefer defiantly to Magistrate Massie, after he had been ordered to pay $10 in wages to W. Springer, whom he had hired as a farm laborer.

Springer stated that he went out haying for his health as he suffered from indigestion, and he thought the odors from the new mown might aid him. Hesdoefer was his employer, but they did not get along very well, and finally Springer was beaten up. About a week ago he brought an assault charge against Hesdorfer, but it was dismissed, and then he attempted to collect his wages without success.

Hesdoefer would not admit that Springer worked at all, but as he was not sure the court allowed the claim.

BELGIANS IN ANTWERP CONFIDENT; POSITION STATED BE EXCELLENT

London, Oct. 5.—A despatch to the Exchange Telegraph company from The Hague says:

"Refugees arriving here from Antwerp say the position of the Belgian forces is excellent, and that the German advance has been steadily checked. The forts are admirably resisting the heavy German artillery fire.

"In the city of Antwerp itself great hopes are entertained of a final victory. There is not the slightest panic. King Albert is continually in the trenches, personally conducting operations.

"The king stayed in one of the trenches for over 20 hours, without resting."

Adventures of Clothes

Chris Johnson and his wife, formerly took in washing in the city, but about a year and a half ago, they moved to the country. When they left the city they took with them a large quantity of laundry, the property of Mrs. Springer, a keeper of rooming apartments.

The linen remained at Johnson's farm until September, when Mrs. Springer got trace of it. Accompanied by Detectives Smith and McIver she paid a visit to the country one day and recovered the goods, still in an unwashed condition. Some of it was found on the beds and around the house, although the greater part of it was in a trunk.

In the police court Mrs. Johnson pleaded that she had been too busy on the farm to wash it and she did not like the idea of returning it in a dirty condition. The case was adjourned until the afternoon.

Canadian Western Lumber Co., of New Westminster, British Columbia, which operates one of the largest sawmills on the continent, has had moving-picture films made of the various units of the plant.

ALBERTA OFFICIAL TAKES IMPORTANT PART IN CONGRESS

Time Coming When Policemen Will be Judged by Fewest Number of Arrests.

VOCATIONAL SCHOOLS IN ASSIMILATING FOREIGNER

Back to Land Cry Hollow Unless Drudgery of Farm Life is Overcome.

St. Paul, Oct. 5.—Prevention is the big word of the prison congress convened here this week. Singularly enough the report on that important branch of the work has been intrusted to H. B. Chadwick, superintendent of dependent and delinquent children in Alberta. The report as read today, was a comprehensive resume of the modern movements looking to the reduction of the criminal class. Among these special stress was laid on the work of the children's aid societies. By these agencies boys and girls are taken from dark and filthy surroundings, given proper medical treatment and placed in the homes of foster parents. The value of this work can only be reckoned in terms of the value of a girl or boy to the community.

Closely associated with the work of the children's aid societies is that conducted by the day nurseries, children's boarding homes, free hospital clinics and kindred institutions.

Mr. Chadwick laid particular emphasis upon the necessity of socializing the police force. "Unfortunately," said he, "the average interpretation of the merit of the policeman is that he has secured a larger number of convictions and made a larger number of arrests than any other man. The time is gradually dawning, however, when the policeman will be recognized for ability to handle his district without arrests or conviction. A large number of these will be taken as evidence of his inability to handle that district as it should be handled."

Effect of Conditions

A large part of the report was given to a consideration of the effect of certain economic conditions in criminal production. Among the relieving features mentioned were the workman's compensation act, factory act prohibiting the employment of children 14 years of age and regulating the hours of those employed. The value of a minimum wage clause and the necessity of giving serious consideration to the question of employees in large departmental stores were particularly stressed. Naturally the report dealt at some length with the good work that is being accomplished by the juvenile courts. Probation officers were spoken of as "big brothers" diverting the energies of mischievous boys into other channels and substituting a christian man for a "Jesse James" as their type of hero. Juvenile courts have succeeded in absorbing into the community the boys and girls who have heretofore been regarded as outlaws.

Public playgrounds, boy scout and boy club movements were commended, especially where competent leadership could be secured. The possibility of widening the circle of influence of the church and the public school through the adoption of the social center ideal was strongly recommended.

The Foreign Population

Speaking of the difficulty of dealing with the foreign elements of the population, Mr. Chadwick said: "From the moment the foreigner leaves his native land, frequently the victim of the persuasive powers of steamship or land agencies, until he is well settled in his new home, he is looked upon as a good thing to be worked. He is debarred from the best society and has little opportunity of bettering his position in life. The bright side in the problem is that the vocational school idea is taking root. The children are classified according to their various capacities and are beginning to find expression in lines heretofore closed to them."

Reference was made to the method by which the country districts are robbed of their best life. "Back to the Land," has become the slogan of many earnest workers who desire to eliminate the cesspools of the city. The cry is a hollow one unless it is possible to overcome the drudgery that is part of the life on the farm. The daughters of the farmers find their livelihood in the stores and offices of the cities, and the sons as mechanical and general workers, with the result that the farms are deserted by the younger life, and the cities are flooded with labor that is unequipped. The result is discontent and later crime.

The report closed with an urgent plea that some serious consideration be given to a more humane and intelligent way of caring for the feeble-minded.

As usual the congress has attracted a great many delegates from every part of the continent. Discussions covering a wide field and a great variety of subjects are occupying their attention.

At the S. A. Citadel

Services in the Salvation Army Citadel, Sunday were largely attended, Adjt. and Mrs. Habkuk, having charge of all the gatherings and the speaking and singing were much enjoyed.

In the afternoon the beautiful citadel band visited the city hospitals, where the music was much enjoyed by the patients. Adjt. Habkuk wishes to express his thanks to the gentleman who kindly loaned their automobiles to convey the band to the various institutions.

A special service is arranged for Thursday evening of this week, when Adjt. Habkuk will endeavor to carry out a startling announcement made yesterday, viz: That he would sing for one hour without stopping, "sixty songs in sixty minutes." This promises to interesting as well as orvel.

Major and Mrs. Moore, from Toronto, will conduct services in the citadel on Saturday, Sunday and Monday, October 10, 11 and 12.

STOCK REDUCTION SALE Begins Tuesday a.m. DRESS GOODS Continues Through Week

A Mighty "BOMBARDMENT" to Speedily Reduce Surplus STOCKS PRICES Take a BIG TUMBLE
